CHRONOLOGICAL FLOWERING SEASONS AT CHERRY HILL

Flowering Shrubs.....	Mid April to late June
Herbaceous Perennials.....	Entire season
Flowering Crab Apple Trees.....	Early May
German Iris.....	Late May and early June
Hybrid Lilacs.....	Late May
Azaleas.....	Late May and early June
Peonies.....	June
Rhododendrons and Kalmias.....	Early to late June
Japanese Iris.....	Mid July
Phlox.....	Mid July to early October
Gladiolus.....	August to October

**1935 AWARDS BY
MASSACHUSETTS HORTICULTURAL SOCIETY**

First Prize for Group of Azaleas in full bloom arranged as a garden.

First Prize for Foundation Planting of Nursery Material, to show the proper use of stock suitable for that purpose.

First Prize for collection of Peonies to cover 200 sq. ft.

First Prize for collection of Peonies to cover 400 sq. ft.

First Prize for best peony in show.

First Prize—Collection of 20 named doubled varieties.

First Prize—Collection of 12 named single varieties.

Second Prize—Collection of 6 Japanese single Peonies named varieties.

First Prize—Collection of 10 named varieties double 3 blooms of each.

First Prize—10 blooms one variety shown in one container.

First Prize—3 Specimen blooms (red) one variety.

First Prize—Group of Azaleas.

First Prize—Cut flowering Shrubs to cover 50 sq. ft.

A glimpse of some of the many Cups and Gold and Silver Medals awarded us in recent years. Above awards show some of our consistent winnings from year to year.

FOREWORD

A NOTHER year has passed over our heads and we are at the beginning of the new year. During the period of the depression, caring for our stock has not been neglected but on the contrary has been kept up even to better than our former quality, which means considerable at this period when most of us have had to neglect some things. All of the following stock will be A No. 1 quality with nice shapely tops and excellent root systems.

We shall be pleased, indeed, to see any of our customers here to inspect our trees and shrubs, but to those who cannot come we would say that no matter where you go or no matter what price you may pay, you will find no better quality than at Cherry Hill.

Our nurseries are always open from 7 A.M. until 5 P.M. and at other times by appointment.

Our sales force consists of well-trained men who have been long in our employ and who will be glad to give you whatever advice you may need in the selection of our stock.

All prices are for stock here at the nursery or put aboard cars at railroad station. Packing will be charged at cost.

We are in a position to make prompt truck delivery at a reasonable price for shipments anywhere within a range of 400 to 500 miles, thus getting stock to customers shortly after being dug.

Beyond that we can give no further warranty as we cannot control soil—planting conditions—weather and after-care. We are willing, however, to replace at the first planting period any stock that will prove untrue to name or to return any amount equal to the original purchase price.

All catalog prices govern the average run of the nursery row, but when a tree or plant of outstanding quality is selected, then a special price is charged.

One to four plants of a single size and variety at the each rate; five to twenty-four at the ten rate; twenty-five and up at the hundred rate when such rate is given.

Experienced plantsmen furnished at reasonable prices.

NO COMPLAINT WILL BE CONSIDERED THAT IS
NOT MADE WITHIN TEN DAYS AFTER
RECEIPT OF GOODS

TERMS: are cash with order from new customers unless otherwise arranged. Charge accounts may be opened by new customers giving bank or trade references or names of parties who have extended them credit. Otherwise, if goods are wanted sent C.O.D. then 25% must accompany order.

Telephone Newburyport 1950

Evergreen Trees

Abies arizonica

Cork Fir

An interesting fir or slow growth having steely blue needles.
The bark is soft and spongy.

	Each	Per 10	Per 100
12 in.....	1.50	13.50	
15 in.....	2.00	17.50	

Abies balsamea

Balsam Fir

Our well-known native evergreen with its aromatic odor and dark green foliage.

6 ft.....	6.00	55.00
8 ft.....	7.25	60.00
10 ft.....	9.00	

Abies concolor

Rocky Mountain Fir

Probably the most magnificent of our firs. This tree attains a height of 80 to 100 feet. Perfectly hardy in exposed situations as it originates in the Rocky Mountains.

3 ft.....	4.25	40.00
4 ft.....	6.25	57.50
5 ft.....	8.50	80.00
6 ft.....	10.50	90.00
7 ft.....	12.50	
8 ft.....	15.00	
10 ft.....	20.00	
12 ft.....	25.00	

Tall stately specimens 15 to 25 ft. tall \$40.00 and up.

Chamaecyparis (See Retinospora)***Juniperus chinensis***

Chinese Juniper

A very attractive and popular evergreen having a silvery green foliage.

4 ft.....	5.00	47.50
5 ft.....	6.50	
6 ft.....	7.50	

Juniperus chinensis columnaris

Pyramidal Chinese Juniper

Of upright growth and pyramidal form like our Red Cedar. Attractive green foliage throughout the year.

3 ft.....	2.25	18.00
4 ft.....	3.00	25.00
5 ft.....	5.00	45.00
6 ft.....	6.25	57.50
7 ft.....	8.00	70.00
8 ft.....	9.00	80.00

Juniperus chinensis pfitzeriana

Pfitzer's Juniper

An evergreen of spreading growth, attaining a height of three to five feet and very useful where one desires this type of Juniper.

1½ ft.....	1.60	14.50	125.00
2 ft.....	2.25	20.00	

Evergreens maintain character in both summer and winter.

	Each	Per 10	Per 100
2½ ft.....	3.25	30.00	
3 ft.....	4.00	35.00	
4 ft.....	6.50	60.00	
5 ft.....	9.00	80.00	
6 ft.....	11.00	100.00	
Larger specimens.....	20.00	and up	

Juniperus communis Upright Form

A form of our native juniper, this makes a dense, upright growth of silvery green.

4 ft.....	3.00	27.50	225.00
5 ft.....	5.00	45.00	
6 ft.....	7.00	60.00	

Juniperus communis depressa Prostrate Juniper

The flat spreading growth makes an excellent ground cover of characteristic green and silver.

2 ft.....	1.75	16.00
3 ft.....	3.00	27.50
4 ft.....	4.00	36.00

Juniperus communis hibernica Irish Juniper

A semi-dwarf evergreen with very close and compact growth and upright form. Very popular for formal effects.

2 ft.....	1.25	11.00
3 ft.....	2.00	18.50
4 ft.....	2.50	20.00
5 ft. specimens.....	3.00 to 4.00	each

Juniperus depressa plumosa Plumed Spreading Juniper

Especially adapted for a ground cover as the plants make thick low carpets.

Bright green changing to an attractive purple as winter approaches.

15 in.....	1.75	15.00
2 ft.....	2.75	25.00
3 ft.....	4.00	26.00

Juniperus excelsa stricta Greek Juniper

A bushy, compact semi-dwarf growing variety very useful in a foundation planting on account of its trim appearance and dark gray foliage.

15 in.....	1.25	11.00
18 in.....	2.00	

Juniperus horizontalis Creeping Juniper

Prostrate in habit, this evergreen is excellent for ground cover or for growing over ledges.

12 in.....	1.50	12.50
15 to 18 in.....	1.75	15.00

Juniperus japonica Japanese Juniper

A slow-growing evergreen of vase form. Very much sought after to include with other evergreens in foundation plantings.

4 ft.....	5.00
5 ft.....	7.00

Juniperus japonica aurea Golden Japanese Juniper
A golden form of the above. Very slow-growing.

	Each	Per 10	Per 100
12 in.	3.50		
15 in.	4.50		

Juniperus sabina Sabin Juniper
Grayish green foliage, semi-prostrate in growth. Very attractive in any mixed collection of evergreens used in foundation plantings.

12 in.	1.00	9.00
15 in.	1.25	10.00
1½ ft.	1.50	12.00
2 ft.	2.25	20.00
2½ ft.	3.00	27.50
3 ft.	4.00	35.00
3½ ft.	4.50	40.00

Juniperus sabina tamariscifolia

Tamarisk-leaved Juniper

This juniper with its silvery green foliage lends itself admirably to rock work or border planting and is much admired.

1½ ft.	2.00	16.50
2 ft.	2.50	22.50
2½ ft.	4.00	35.00
2½ ft. specimens	5.00	45.00
3 ft. specimens	7.00 to 10.00	each

Juniperus squamata Japanese Trailing Juniper

Dwarf, spreading habit with thick attractive foliage of bright green. Desirable for rock gardens or foundation plantings.

1½ ft.	2.50	20.00
2 ft.	2.75	25.00

Juniperus squamata meyeri

Meyer's Juniper

Slow-growing and semi-upright in form. The color is intense steely blue quite distinct from any other.

1½ ft.	2.50	22.50
2 ft.	3.25	30.00
2½ ft.	5.00	40.00

Juniperus virginiana

Native Red Cedar

The red cedar varies in habit from stately upright forms to narrow columns, and with its foliage ranging from a dark green to that of almost blue makes it very desirable.

3 ft.	2.50	22.50
4 ft.	3.75	32.50
5 ft.	4.75	42.50
6 ft.	6.00	55.00
7 ft.	9.00	85.00
8 ft.	12.00	110.00
9 ft.	15.00	135.00
10 ft. and up.	20.00	and up

Juniperus virginiana glauca Blue Juniper
Silvery blue and graceful in growth this cedar is distinct and beautiful.

	Each	Per 10	Per 100
3 ft.....	3.00	27.50	
4 ft.....	5.00	45.00	
5 ft.....	6.50	60.00	
6 ft.....	8.00	75.00	
7 ft.....	10.00	90.00	
8 ft.....	12.50		

Picea canadensis American White Spruce
Our native spruce is clean and free in growth and makes a magnificent specimen eighty to one hundred feet in height.

1½ ft.....	1.00	9.00
2 ft.....	1.25	11.00
3 ft.....	2.00	17.50
6 ft.....	6.00	
7 ft.....	8.00	
8 ft.....	10.00	

Picea excelsa Norway Spruce
A rapid growing tree, very useful for hedges or windbreaks.

2 ft.....	1.00	8.50	75.00
3 ft.....	1.50	12.50	
4 ft.....	2.25		
5 ft.....	3.50		
6 ft.....	5.00	45.00	
8 ft.....	7.00	65.00	
10 ft.....	10.00	90.00	
12 ft.....	15.00		

We have specimens 12 to 14 ft. 15.00 and up

Picea excelsa conica Arrowhead Norway Spruce
A dwarf variety of the above. Of compact and symmetrical growth and excellent as a single tree or in groups.

6 ft.....	15.00
7 ft.....	20.00

Picea excelsa maxwellii Maxwell's Dwarf Spruce
Extremely slow-growing, of symmetrical form. We have plants thirty years old which are not more than three feet in diameter.

2½ to 3 ft. specimens	35.00 to 50.00 each
-----------------------	---------------------

Picea glauca conica Dwarf Alberta Spruce
A dwarf ornamental evergreen, pyramidal in shape and very dense. Exceedingly attractive for a border or for use in rock gardens.

12 in.....	1.50	12.50	110.00
15 in.....	2.00	17.50	160.00
18 in.....	2.50	22.50	200.00
21 in.....	3.00	27.50	240.00
2 ft.....	3.50	30.00	260.00
2½ ft.....	5.00	45.00	400.00
3 ft.....	10.00	90.00	
Larger specimens.....	15.00 to 40.00		

Picea pungens

Colorado Spruce

A fast-growing evergreen, having a symmetrical shape and dark green foliage. Very desirable for hedges and screens.

	Each	Per 10	Per 100
4 ft.....	3.00	27.50	
5 ft.....	4.00	37.50	
6 ft.....	5.00	45.00	

Picea pungens glauca

Colorado Blue Spruce

A "blue" form of the above. Rugged growth and bold habit make these useful as individual accents.

4 ft.....	7.00	65.00
5 ft.....	9.00	85.00
6 ft.....	11.00	100.00

Picea pungens kosteri

Koster's Blue Spruce

This well-known variety needs no further endorsement except to say that outside of the Moerheimi it is one of the best blues. Our stock makes an excellent growth.

2 ft.....	4.00	36.00
4 ft.....	9.00	80.00
5 ft.....	12.00	100.00
6 ft.....	17.50	160.00
7 ft.....	20.00	180.00

Picea pungens moerheimi

Moerheim Blue Spruce

Our very low prices on this spruce of intense glaucous blue make it possible for anyone to plant one or more of these.

1½ ft.....	4.00	36.00
2 ft.....	5.00	45.00
7 ft.....	25.00	225.00
8 ft.....	30.00	275.00
9 ft.....	35.00	300.00

Larger sizes on application.

Pinus cembra

Swiss Stone Pine

Resembles our native White Pine but is of much slower growth and of compact bushy form. Very desirable for specimens.

1½ ft.....	2.50	22.50
2 ft.....	4.00	36.00
2½ ft.....	5.00	45.00
3 ft.....	6.00	55.00
4 ft.....	13.50	120.00
4½ ft.....	16.00	145.00
5½ to 8 ft. specimens.....	20.00 to 35.00	each

Pinus montana

Mountain Pine

An upright-growing form of the Pinus Mughus, having a spread of about two-thirds its height. Very desirable.

2 ft.....	2.25	20.00
2½ ft.....	3.00	27.50
3 ft.....	4.00	35.00

If you do not see what you want in our catalog, please write us.

Pinus montana mughus Dwarf Mountain Pine
 Dwarf, spreading type with short dark green needles and many stems. Very satisfactory for rock work, planting on banks, in groups along a drive or near a foundation. The true type is usually as broad as it is high.

	Each	Per 10	Per 100
12 in. spread90	8.00	70.00
15 in. spread	1.20	10.50	100.00
18 in. spread	1.50	13.50	120.00
2 ft. spread	2.25	20.00	
2½ ft. spread	3.00	27.50	
3 ft. spread	4.00	35.00	

Pinus nigra austriaca Austrian Pine
 A bold, fast-growing Pine. Its hardiness makes it very satisfactory for the seashore.

5 ft.	7.00	
6 ft.	9.00	
10 ft.	20.00	175.00

Pinus resinosa Red Pine
 Fast-growing tree with long needles of dark green. Used extensively for timber or landscape effects.

4 ft.	2.75	26.00
5 ft.	4.25	40.00
6 ft.	6.00	50.00
7 ft.	8.50	80.00
8 ft.	10.00	90.00
16 to 20 ft. specimens	35.00	to 50.00 each

Pinus sylvestris Scotch Pine
 A picturesque tree with silvery foliage and reddish brown trunk. It will grow readily in sandy soil or on dry slopes.

3 ft.	2.00	18.50
6 ft.	5.50	50.00
Larger sizes from 8 to 14 ft.	15.00	to 50.00 each

Pinus watereriana Waterer's Pine
 A dwarf form of the above, having a steely blue foliage and is very symmetrical in growth. Its scarcity and beauty should make it find a place in almost any planting.

1½ ft.	3.50	32.50
2 ft.	5.00	45.00

Pseudotsuga douglasi Douglas Spruce
 One of our finest large evergreens. Growth compact and symmetrical. It may be grown as a specimen or in hedges or windbreaks. Hardy and vigorous.

3 ft.	2.50	20.00
4 ft.	3.50	30.00
5 ft.	4.50	40.00
6 ft.	7.00	65.00
7 ft.	9.00	80.00
8 ft.	12.00	100.00
Larger sizes from 9 to 25 ft.	18.00	to 100.00 each

Stock freshly dug and transported by motor trucks up to five hundred miles away.

Retinospora filifera Thread-branched Japanese Cypress
Sometimes called the fountain tree on account of its long thin branches, its appearance resembling a large spray of water. Its breadth equal to its height.

	Each	Per 10	Per 100
2 ft.....	1.90	16.50	
3 ft.....	3.25	30.00	
4 ft.....	4.75	42.50	
5 ft.....	5.50	50.00	
6 ft.....	8.50	80.00	

Ret. filifera aurea Golden Japanese Cypress

A bright yellow form of the above of very slow growth.

1½ ft.....	2.25	20.00
2 ft.....	3.50	
3 ft.....	6.00	

Ret. obtusa compacta Compact Cypress

This attractive evergreen with its many stems makes a rounded growth of dark green.

2 ft.....	2.35	21.00
5 ft.....	11.50	100.00
6 ft.....	14.00	125.00

Ret. obtusa gracilis Hinoki Cypress

Slow-growing in most interesting form with dark green rounded fans of foliage.

15 in.....	2.25	20.00
18 in.....	3.25	30.00
2 ft.....	4.00	38.00
2½ ft.....	6.25	60.00
3 ft.....	9.00	80.00
4 ft.....	13.50	125.00

Ret. obtusa nana compacta Dwarf Cypress

This is one of the most attractive of the dwarf evergreens. Of very slow growth with twisting stems it makes a charming little plant.

6 in. spread.....	2.50	22.50
9 in. spread.....	3.50	32.50
12 in. spread.....	5.00	45.00

Ret. pisifera argentea Dwarf Golden Plumed Cypress

Beautiful indeed with its compact growth of fine yellow foliage. Much desired for rock gardens, borders or long walks.

18 in.....	2.60	22.50
24 in.....	4.00	36.00

Ret. plumosa Plumed Cypress

Feathery light green foliage. If pruned the plants will be broad and bushy of very compact growth.

1½ ft.....	1.00	9.00
2 ft.....	1.50	12.50

	Each	Per 10	Per 100
2½ ft.....	2.00	15.00	
3 ft.....	2.50	22.50	
4 ft.....	3.50	32.50	
5 ft. bushy.....	6.50	55.00	
6 ft. bushy.....	8.50	75.00	

Ret. plumosa aurea

Golden Plumed Cypress

A yellowish green form of the above. Slow growth and compact habit.

$1\frac{1}{2}$ ft.	1.10	10.00
2 ft.	1.65	14.00
$2\frac{1}{2}$ ft.	2.25	20.00
3 ft.	2.80	26.00
4 ft.	3.50	32.50
5 ft.	6.00	55.00
6 ft.	9.00	80.00

Sciadopitys verticillata

Japanese Umbrella Pine

Of very slow growth this rare Japanese pine will eventually attain a large size. So named because of the peculiar whorl of needles, like a tiny umbrella, at the end of each tip.

12 in.	1.50
15 in.	2.50
1½ ft.	3.50
2 ft.	6.50
Large specimens 5 to 10 ft.	25.00 to 75.00 each

Taxus baccata repandens

English Spreading Yew

Very flat and compact, this yew develops into handsome specimens. Foliage very dark green. Prefers a little shade.

12 in.	2.00	17.50	150.00
15 in.	3.00	22.00	200.00
18 in.	4.00	30.00	275.00
2 ft.	5.00	45.00	400.00
2½ to 3½ ft. specimens . . .	7.00 to 20.00	each	

Taxus cuspidata

Spreading Japanese Yew

One of our most valuable evergreens of vase or spreading form. Will thrive in full sun or in shade. Makes a charming foundation planting.

12 in.	.90	8.00	70.00
15 in.	1.35	12.00	100.00
1½ ft.	1.75	16.00	135.00
2 ft.	3.00	27.00	225.00
2½ ft.	4.00	35.00	310.00
3 ft.	6.00	55.00	500.00
3½ ft.	9.00	80.00	725.00
4 ft.	13.50	120.00	
4½ ft.	18.00	160.00	
4 to 7 ft. extra specimens	20.00 to 50.00	each	

Use a little fine garden peat where your soil is either a little light or too heavy.

Taxus cuspidata capitata**Upright Yew**

Upright in growth, this variety makes a very valuable tree for hedges. It will stand shearing well and will grow in shade. Especially attractive in the fall with its bright red berries and green foliage.

	Each	Per 10	Per 100
15 in.....	1.35	12.00	100.00

2 ft.....	8.00	75.00	725.00
2½ ft.....	13.00	110.00	1050.00
Specimens 3 to 8 ft.....	Prices on application		

Taxus hatfieldi**Hatfield's Upright Yew**

We are fortunate in having, probably, the best stock in the country of this popular variety. A cross between the English and Japanese yew, having the upright growth of the former and the hardiness of the latter. Many erect stems and dark green foliage. We can heartily recommend it to plant as a hedge or for specimens.

15 in.....	1.80	16.50	140.00
18 in.....	2.75	25.00	225.00
21 in.....	3.60	32.50	300.00
2 ft.....	4.50	42.50	375.00
2½ ft.....	6.00	55.00	500.00
3 ft.....	8.25	77.50	
4 ft.....	11.50	100.00	

Taxus hicksii**Hick's Upright Yew**

Another hybrid of slender upright growth. The dark green spires are fine for formal effects where a hardy evergreen is desired.

18 in.....	2.50	22.50	
2 ft.....	3.00	27.50	250.00
2½ ft.....	4.50	40.00	350.00
3 ft.....	6.50	60.00	

The planting of the home grounds oftentimes shows the character of the owners.

Thuya occidentalis

American Arborvitae

Broad pyramidal growth and light green foliage. Much used for hedges and screens as it is of fast growth and withstands the cold of winter.

	Each	Per 10	Per 100
2 ft.	1.00	9.00	80.00
3 ft.	1.60	14.50	125.00

3 ft. specimen	3.75	32.50
4 ft. and up specimens	6.00 to 10.00	

Thuya hoveyi

Hovey's Arborvitae

Slow-growing with a breadth almost equal to its height. Very pleasing in appearance and useful beside walks, drives or planted out as individual specimens.

18 in.	1.15	10.00
2 ft.	1.50	13.50
2½ ft.	2.00	17.50
3 ft.	2.50	22.50

Thuya Little Gem

Dwarf Globe Arborvitae

This little arborvitae is a true dwarf as it grows very slowly. Much broader than its height.

9 in.	1.25	10.00
18 in.	3.25	30.00

Thuya pyramidalis

Pyramidal Arborvitae

Narrow pyramidal trees of dark green foliage. Used a great deal for accents or for narrow hedges.

2 ft.	1.00	9.00	80.00
3 ft.	1.65	14.00	110.00
4 ft.	2.50	22.50	200.00
5 ft.	4.00	37.50	300.00
6 ft.	5.00	45.00	400.00
7 ft.	6.50	60.00	550.00

***Thuya pyramidalis*—(continued)**

	Each	Per 10	Per 100
8 ft.	8.00	75.00	650.00

10 ft.	16.00	150.00	
Specimens, 10 ft. and up.	20.00 to 35.00	each	

Thuya pyramidalis douglasi

Douglas Pyramidal Arborvitae

Dense pyramidal form with peculiarly twisted foliage. Dark green throughout the year.

2 ft.	1.50	13.50	
3 ft.	2.25	20.00	
4 ft.	3.00	27.50	
5 ft.	4.50	42.50	
6 ft.	6.00	55.00	500.00
7 ft.	7.50	70.00	
8 ft.	10.00	95.00	
9 ft.	12.00	110.00	

Thuya rosenthali

Rosenthal's Arborvitae

A dense compact form. Somewhat slower growing than the pyramidal arborvitae. Very beautiful.

2 ft.	1.50	13.50	
3 ft.	2.25	20.00	
4 ft.	3.00	27.50	
5 ft.	4.50	42.50	
6 ft.	6.00	55.00	
7 ft.	7.50	70.00	

Thuya wareana

Siberian Arborvitae

Of slow growth and thick heavy foliage which makes this a satisfactory tree for low hedges or foundation plantings. Trees grow into broad pyramids. Very hardy.

1½ ft.	1.00	9.00	80.00
2 ft.	1.50	12.50	90.00
2½ ft.	1.75	16.00	140.00
3 ft.	2.25	18.00	160.00
3½ ft.	2.75	25.00	200.00
4 ft.	3.00	27.50	260.00
5 ft.	5.00	45.00	400.00
6 ft.	8.00	70.00	650.00
7 ft.	12.00	110.00	1000.00

Tsuga canadensis

Canadian Hemlock

This graceful tree with its short dark green needles is useful in many places and the feathery effect of its slender branches is always pleasing.

2 ft.	1.50	13.50	125.00
3 ft.	2.50	22.50	200.00
4 ft.	4.00	36.00	325.00

8 ft.....	6.00	55.00
10 ft.....	9.00	85.00

Fagus americana American Beech
Our well-known native beech with gray bark and light green leaves.

	Each	Per 10	Per 100
7 ft. B. & B.	7.00		
8 ft. B. & B.	9.50		

Fagus sylvatica European Beech
3 ft. B. & B. 3.00 27.50
4 ft. B. & B. 4.00 37.50
5 ft. B. & B. 5.50

Fagus sylvatica riversi Rivers' Grafted Beech
Scions for these grafts were selected by us from a specimen having deep blackish red leaves.

2 ft.	3.00
3 ft.	4.00
4 ft.	5.50
5 ft.	7.00

Write for detailed description sheet of large specimens.

Laburnum vulgare Golden Chain
A small, dense, bushy tree with dark green foliage and long racemes of bright golden flowers.

2 ft.	1.50	13.50
3 ft.	1.75	16.50
4 ft.	2.25	

Liriodendron tulipifera Tulip Tree
A fast-growing tree. Has numerous small deep-yellow tulip-shaped flowers.

8 ft.	2.00
10 ft.	2.75
12 ft.	3.50

Magnolia acuminata Cucumber Tree
Large fast-growing tree with deep yellow blossoms and odd-shaped red fruit.

5 ft.	2.00
6 ft.	2.75

Magnolia alba superba Large Saucer Magnolia
Very attractive on account of the many large ivory-white blossoms.

3 ft.	4.00	36.00
4 ft.	6.00	50.00
5 ft.	10.00	
6 ft.	13.50	
7 ft.	16.00	

Magnolia alexandrina Alexander Magnolia
Immense shell-pink flowers. Very popular.

3 ft.	4.00	36.00
4 ft.	6.00	
5 ft.	10.00	
6 ft.	12.50	
7 ft.	16.00	

Magnolia kobus	Kobus Magnolia		
The fastest-growing of all Magnolias. Medium-sized leaves and creamy-white flowers.			
4 ft.	Each	Per 10	Per 100
	4.00	36.00	
5 ft.		6.00	55.00
6 ft.		8.00	75.00
7 ft.		10.00	90.00
Magnolia lennei	Lenne Magnolia		
Most popular of all Magnolias. Outside of flowers rose-purple, beautiful ivory-white on inside.			
3 ft.	8.00		
4 ft.	10.00		
5 ft.	13.50		
6 ft.	16.00		
Magnolia soulangeana	Saucer Magnolia		
One of the most popular Magnolias. Large shell-pink flowers.			
3 ft.	4.00	36.00	
4 ft.	5.50	50.00	
5 ft.	9.00	85.00	
6 ft.	12.00	100.00	
7 ft.	15.00		
Magnolia soulangeana nigra	Purple Lily Magnolia		
Same as above but flowers of dark purplish sheen.			
3 ft.	4.00	36.00	
4 ft.	6.00	50.00	
5 ft.	9.00	80.00	
6 ft.	12.00		
7 ft.	15.00		
Magnolia speciosa	Striped Saucer Magnolia		
Extra large flowers of deep rosy-pink.			
3 ft.	4.00		
4 ft.	6.00	50.00	
5 ft.	9.00	80.00	
6 ft.	12.00		
7 ft.	15.00		
Magnolia stellata	Star Magnolia		
One of the bushy dwarf-growing varieties literally covered with beautiful star-shaped white flowers.			
2 ft.	4.50	42.50	
2½ ft.	6.00	55.00	
3 ft.	8.00		
3½ ft.	10.00		
Magnolia tripetala	Umbrella Magnolia		
Very valuable for its extremely large foliage sometimes twelve to fifteen inches long and four to five inches wide.			
3 ft.	1.25	10.00	
4 ft.	1.50	12.50	
5 ft.	2.00	17.50	
6 ft.	2.75	25.00	

Malus arnoldiana	Arnold's Crab
Rugged-growing covered with a multitude of medium-pink flowers.	
	Each Per 10 Per 100
3 ft.....	1.25
4 ft.....	1.75
Malus atrosanguinea	Crimson Crab
Beautiful carmine buds opening into a crimson.	
	Each Per 10 Per 100
4 ft.....	1.75 15.00
5 ft.....	2.50 22.50
6 ft.....	3.00 27.50
7 ft.....	4.00 36.00
8 ft.....	6.00 55.00
Malus bechteli	Bechtel's Flowering Crab
Sometimes called the rose flowering crab on account of its hundreds of small pink rose-bud flowers.	
	Each Per 10 Per 100
3 ft.....	1.00 9.00
4 ft. bushy.....	1.50 13.50
5 ft. bushy.....	2.25 20.00
6 ft. bushy.....	3.00 27.50
7 to 10 ft. specimens, B.&B.	8.00 to 15.00 each
Malus eleyi	Eley Crab
A later variety bearing large rose-pink flowers in large numbers.	
	Each Per 10 Per 100
3 ft.....	1.25
4 ft.....	1.75
6 ft.....	3.50 32.50
7 ft.....	5.00 45.00
Malus floribunda	Japanese Flowering Crab
Literally covered with hundreds of pink buds changing to a beautiful white.	
	Each Per 10 Per 100
4 ft.....	1.75 16.50
5 ft.....	2.50 22.50
6 ft.....	3.00 27.50
7 ft.....	4.00 36.00
Malus niedzwetskyana	Red-veined Flowering Crab
Valuable for its dark bronze-red foliage and its immense fruit.	
	Each Per 10 Per 100
3 ft.....	1.25
7 ft.....	4.00 35.00
8 ft.....	6.00 55.00
10 ft.....	8.00
Malus parkmani	Parkman's Crab
One of the handsomest of the flowering crabs bearing thousands of double rose-red flowers.	
	Each Per 10 Per 100
5 ft.....	4.00
6 ft.....	5.00 45.00
7 ft.....	7.00

Let us not pass another year without planting a tree for future generations.

Malus purpurea	Purple Crab		
A fairly rapid-growing ornamental crab with deep crimson flowers.			
6 ft.	Each	Per 10*	Per 100
6 ft.	3.50	30.00	
7 ft.	4.00	35.00	
8 ft.	5.00	45.00	
10 ft.	6.50	60.00	
8 to 12 ft. specimens	7.00 to 12.00	each	
Malus robusta	Cherry Crab		
Very fast in growth and literally covered with thousands of large white blossoms.			
3 ft.	1.25		
4 ft.	1.75		
12 to 14 ft. specimens	7.00 to 12.00	each	
Malus sargentii	Sargent's Crab		
A slower-growing variety with beautiful white flowers followed by scarlet fruit which hangs on all winter.			
4 ft.	3.00	27.00	
5 ft.	4.00	36.00	
6 ft.	5.00	45.00	
7 ft.	6.50	60.00	
Malus scheideckeri	Scheidecker Crab		
One of the most popular of the deep-pink flowering varieties.			
5 ft.	2.50	22.50	
6 ft.	3.00	27.50	
8 ft.	4.50	40.00	
7 to 10 ft. specimens	6.00 to 10.00	each	
Malus spectabilis	Chinese Flowering Crab		
One of the most fragrant of the flowering crabs. Flowers deep pink and semi-double.			
5 ft.	2.50		
6 ft.	3.00		
7 ft. specimens	5.00		
Malus theifera	Tea Crab		
One of the most beautiful of the light-pink variety.			
4 ft.	1.75		
5 ft.	2.25		
6 ft.	2.75		
For specimen sizes and prices of flowering crabs, write for special sheet.			
Populus nigra italicica	Lombardy Poplar		
One of the fastest-growing trees. Valuable on account of its shapely pyramidal branches and adaptability for screens and formal avenue planting.			
6 ft.	.60	5.00	40.00
8 ft.	.85	7.50	
10 ft.	1.00	9.00	
12 ft.	1.50	12.50	110.00
14 ft.	2.00	17.50	140.00
16 ft.	2.75	25.00	225.00
12 to 30 ft. specimens	4.00 to 20.00	each	

Prunus pissardi nigra	Purple Leaf Plum		
Very beautiful on account of its dark blackish-red foliage. Flowers small and of a light pink.			
Each	Per 10	Per 100	
3 ft.....	1.00	9.00	
4 ft.....	1.25	11.00	
5 ft. bushy specimens.....	1.50		
6 ft. bushy specimens.....	2.00		
Prunus triloba	Pink Flowering Plum		
Very beautiful medium-growing tree with bright pink flowers.			
3 ft.....	1.00	8.50	
Quercus palustris	Pin Oak		
One of the most ornamental of the Oaks. Pyramidal in form, branches slightly drooping. Leaves turn to a beautiful red in the fall.			
8 ft.....	4.00	37.50	
10 ft.....	6.00	55.00	
12 ft.....	8.00	75.00	
14 ft.....	10.00		
Quercus rubra	Red Oak		
A fast-growing variety. Very valuable for its foliage which turns to a beautiful red in the early fall.			
8 ft.....	4.00	37.50	
10 ft.....	5.00	47.50	
12 ft.....	7.50	70.00	
14 ft.....	10.00	95.00	
Salix elegantissima	Thurlow's Weeping Willow		
One of the best of the semi-weeping varieties.			
10 ft.....	2.00	17.50	
16 to 20 ft. specimens.....	10.00 to 12.00	each	
Salix pentandra	Laurel-leaved Willow		
Dwarf-growing and very valuable for hedges and screens. Foliage dark, glossy green.			
6 ft. bushy	1.00	8.50	
8 ft. bushy	1.35	12.00	
10 ft. bushy	1.75	16.50	
12 ft. bushy	2.50	22.50	
Sorbus aucuparia	European Mountain Ash		
Very beautiful, indeed, with its finely cut foliage and clusters of red berries which hang on pretty well into the winter.			
6 ft.....	1.25	10.00	90.00
8 ft.....	1.75	15.00	125.00
10 ft.....	2.25	20.00	180.00
12 ft. heavy.....	3.00	27.50	240.00
14 ft. heavy.....	4.00	36.00	325.00
16 to 20 ft. specimens.....	7.00 to 15.00	each	

The red and white flowering Dogwoods do well in partial shade.

Tilia cordata Little-leaf European Linden
Very desirable for street or avenue planting. Tree is of fast growth forming compact, bushy heads.

	Each	Per 10	Per 100
5 ft.	1.25	11.00	
6 ft.	2.25	20.00	
7 ft.	2.75	25.00	

Tilia vulgaris European Linden
One of the most rapid growing of all Lindens. Most symmetrical in growth. Largely used for street or avenue planting.

4 ft.	.90	8.00
5 ft.	1.10	10.00
6 ft.	2.50	22.50
8 ft.	3.50	32.50
10 ft.	5.00	45.00

Ulmus americana American Elm
Our stock of this popular variety carries an excellent shape and is much sought after for both park and street planting.

8 ft.	1.60	12.50	110.00
10 ft.	2.00	18.00	150.00
12 ft.	2.75	25.00	225.00
14 ft.	4.00	36.00	340.00
2½ to 3 in. cal.	7.00	63.00	600.00
16 to 20 ft. specimens	8.00 to 20.00	each	

Ulmus pumila Chinese Elm
One of the most rapid-growing of all trees. Foliage very fine, developing into thick shapely tops. Will thrive on almost any soil.

10 ft. bushy tops	3.00
12 ft. bushy tops	4.25
15 to 18 ft. specimens, broad and bushy	10.00 to 15.00 each

An Outdoor Living Room Designed and Planted by the Cherry Hill Nurseries.

Deciduous Shrubs

Acanthopanax pentaphyllum Aralia

Foliage finely cut and ornamental. Grows well in shady places.

	Each	Per 10	Per 100
1 ft.....	.20	1.80	15.00
2 ft.....	.35	3.00	
5 ft.....	1.00	8.00	
6 ft.....	1.25	11.00	

Aronia arbutifolia Red Chokeberry

Small shrub attractive for its white flowers and bright red fruit and for the bright autumnal tints of the foliage.

1½ ft.....	.50	4.00
2 ft.....	.65	5.00

Azalea arborescens Sweet Azalea

Beautiful white flowers of delightful aroma. Thrives well in shady places.

1½ ft.....	2.25	20.00
2 ft.....	2.75	23.00

Azalea calendulacea Flame-colored Azalea

Perhaps one of the most colorful of all Azaleas. Flowers ranging from a light creamy-yellow to fiery red.

15 to 18 in. clumps.....	1.50	13.00
1½ ft. clumps.....	2.20	18.50
2 ft. clumps.....	2.50	22.00
2½ ft. clumps.....	3.00	27.50

Azalea japonica Japanese Azalea

Too much cannot be said of these large-flowered seedlings which bear very attractive blossoms from light yellow and buff to a very deep orange-red.

9 to 12 in.....	1.50	13.50
12 in.....	2.00	17.50
18 in.....	2.75	22.50

Azalea kaempferi Japanese Torch Azalea

One of the most popular of the early spring-flowering Azaleas. At sunset the flowers appear to be literally on fire.

9 in.....	1.25	10.00
12 in.....	1.75	15.00
15 in.....	2.10	18.25
18 in.....	2.60	23.50

Azalea ledifolia alba White Evergreen Azalea

Sometimes called the snow Azalea on account of its wax-like beautiful white flowers.

12 in.....	2.50
15 in.....	3.25
18 in.....	4.50

Five or more plants, shrubs or trees of a single size
or variety take the ten rate.

Azalea Louisa Hunnewell seedlings

One of the most beautiful of all Azaleas. Large flowers ranging from a light peach color to that of dark orange.

	Each	Per 10	Per 100
12 in.	1.80	17.00	
15 in.	2.50	22.50	
18 in.	3.00	28.00	
21 in.	4.00	37.00	
24 in.	5.00	48.00	

Azalea mucronulatum

Mongolian Azalea

Very valuable on account of its deep rosy-pink flowers which come in early April.

1½ ft.	3.00	27.00
2 ft.	3.65	32.00
2½ ft.	4.20	39.50
3 ft.	5.00	45.00

Azalea obtusum

A charming little plant of dwarf, spreading growth bearing small rosy purple flowers. Ideal for rock gardens.

6 in.	1.00	9.00
9 in.	1.25	11.00

Azalea pontica seedlings

Ghent Azalea

One of the best of the yellow varieties. Flowers from a light lemon to a deep orange.

12 in.	1.25	11.00	100.00
15 in.	1.75	16.50	145.00
18 in.	2.25	20.00	
2 ft.	3.00	27.50	
2½ ft.	4.00	36.00	
3 ft.	5.00		

Azalea poukhanensis

Korean Azalea

This very early blooming variety is literally covered with beautiful rosy-lilac blossoms.

9 in.	1.25	11.00
12 in.	1.50	13.50
15 in.	2.00	18.50
18 in.	2.25	20.00
21 in.	3.00	27.50

Azalea rosea

Rose-colored Azalea

Aroma very fragrant and blossoms beautiful.

12 in.	1.25	11.00
18 in.	2.00	18.50
24 in.	2.75	25.00

Azalea schlippenbachii

Royal Azalea

Beautiful deep pink flowers of immense size. Considered one of the best.

9 in.	2.00	18.50
12 in.	3.00	27.50
15 in.	4.00	36.00

Keep the ground around your plants and shrubs well cultivated.

Azalea vaseyi	Southern Pink Azalea		
Early flowering. Flowers of a delicate pale pink.			
	Each	Per 10	Per 100
12 in.	1.70	15.50	130.00
15 in.	1.90	16.50	150.00
18 in.	2.65	24.00	215.00
2 ft.	3.65	33.00	
2½ ft.	4.65	44.00	
Azalea viscosa	Swamp Honeysuckle		
One of the handsomest of our native white Azaleas. Very early.			
12 in.75	6.50	
18 in.	1.10	9.50	
2 ft.	1.50	13.50	
2½ ft.	2.00	17.50	
Berberis thunbergi	Japanese Barberry		
Very popular, indeed, where a low hedge is wanted. Its bright yellow flowers and deep red fruit together with its foliage, which turns scarlet in the winter, make it very desirable.			
12 to 15 in. bushy.....	.16	1.25	11.00
15 to 18 in. bushy.....	.20	1.50	13.50

3 to 3½ ft. extra bushy....	1.35	11.50	
4 ft. extra bushy.....	2.00	18.25	
Berberis thunbergi purpurea	Red-leaved Barberry		
A reddish variety of the above.			
15 to 18 in.45	4.00	
18 to 24 in.65	5.50	
Buddleia davidi magnifica	Butterfly Bush		
Light purplish flowers borne in long racemes all through the flowering season.			
Strong plants.....	.35	3.00	
Buddleia Ile de France	Improved Butterfly Bush		
One of the most beautiful of all recently introduced Buddleias. Spikes deeper colored than all others.			
Strong plants.....	.60	5.50	
Clethra alnifolia	Sweet Pepper Bush		
A very beautiful shrub with its dark shiny leaves and small spike-like flowers of a very sweet spicy aroma.			
1½ to 2 ft.35	3.00	
2 to 2½ ft.45	4.00	
2½ to 3 ft.60	5.00	
3 to 4 ft.70	6.00	

See our picture of some of the medals and other prizes awarded us.

Cornus alba	Red-barked Cornel
Very attractive for roadside or brookside plantings and for its bright red bark, which color continues all through the winter.	
	Each Per 10 Per 100
2 to 3 ft.30 2.75
3 to 4 ft.40 3.00
4 to 5 ft.50 4.50
Cornus stolonifera aurea	Yellow-barked Cornel
A beautiful yellow-barked variety of the above.	
2 to 3 ft.35 2.75
3 to 4 ft.45 4.00
4 to 5 ft.65 6.00
Cotoneaster divaricata	Spreading Cotoneaster
Very attractive and unique with its spreading branches and small oval leaves.	
2 ft.	1.00 9.00
3 ft.	1.25 10.00
Cotoneaster horizontalis	Rock Cotoneaster
One of the most beautiful of the dwarf, spreading varieties. Flowers borne the entire length of its branches.	
9 to 12 in. potted....	.95 8.50
12 to 15 in. potted....	1.15 10.00
15 to 18 in. potted....	1.30 11.00
Cotoneaster salicifolia floccosa	Willow-leaf Cotoneaster
A drooping variety. Very valuable, for covering boulders or other rock work.	
15 to 18 in. potted....	1.10 10.00
18 to 24 in. potted....	1.35 11.00
Cydonia japonica	Japanese Quince
Very choice for an individual planting or where a hedge is wanted. Flowers from a light apricot color to those of a deep pink and red.	
1 to 1½ ft. bushy....	.35 3.00 27.00
1½ to 2 ft. bushy....	.40 3.60 32.00
2 to 2½ ft. bushy....	.45 4.20 36.00
2½ to 3 ft. bushy....	.60 5.50 45.00
Daphne mezereum	Early Daphne
Much sought after where a color is wanted in the early spring before the leaves appear. Flowers deep rose pink, delightfully fragrant.	
12 to 18 in.75 6.50 50.00
1½ to 2 ft.	1.15 11.00
2 to 2½ ft.	1.40 12.50
2½ to 3 ft.	2.00 17.50
Deutzia gracilis	Dwarf Deutzia
A very graceful dwarf form with single white flowers.	
9 to 12 in.25 2.00
12 to 15 in.35 3.00

Ask to see the photographs of some transformations we have made.

Deutzia gracilis rosea	Rose-colored Deutzia		
A rose-colored form of the above.			
Each	Per 10	Per 100	
2 to 2½ ft.45	4.00	
2½ to 3 ft.55	4.50	
Deutzia lemoinei	Dwarf Hybrid Deutzia		
A semi dwarf-growing variety. Very graceful and desirable with its snow-white flowers.			
1½ to 2 ft.35	2.75	
2 to 2½ ft.40	3.50	26.00
2½ to 3 ft.50	4.00	30.00
3 ft.65	5.50	
Dogwood (See Cornus)			
Euonymus alatus	Cork-barked Euonymus		
One of the most unique shrubs growing. Foliage a medium green, turning to a dark fiery-red with beautiful dark orange berries turning to a delightful red in the fall.			
3 to 4 ft. heavy....	.75	6.50	55.00
4 to 5 ft. heavy....	1.40	12.50	95.00
5 to 6 ft. heavy....	1.80	17.50	
6 to 7 ft. heavy....	2.25	21.00	
Euonymus alatus compacta	Dwarf Euonymus		
Similar to the above but more dwarf in growth.			
9 to 12 in.35	3.00	
12 to 18 in.45	4.00	
Euonymus yedoensis	Burning Bush		
Very attractive in the fall with its brilliant red foliage and clusters of deep orange-red berries.			
3 to 4 ft. extra bushy....	.75	6.00	
4 to 5 ft. extra bushy....	1.10	9.00	
5 to 6 ft. extra bushy....	1.25	11.00	
6 to 7 ft. extra bushy....	2.00	17.50	
Forsythia intermedia spectabilis	Showy Golden Bell		
Very desirable in the springtime with its bright yellow flowers appearing before the leaves.			
2 to 3 ft.55	4.50	
3 to 4 ft.70	6.00	
Forsythia suspensa	Weeping Golden Bell		
A drooping form of the above, giving a fountain-like effect.			
2 to 3 ft.55	4.50	
3 to 4 ft.70	6.00	
Forsythia suspensa fortunei	Fortune's Forsythia		
An upright form of the above.			
2 to 3 ft.40	3.50	
3 to 4 ft.50	4.50	
Hamamelis virginiana	Witch Hazel		
Unique, ornamental yellow flowers in the winter.			
4 to 5 ft.75	6.50	
5 to 6 ft.	1.00	9.00	
6 to 8 ft. specimens....	1.50 to 2.00	each	

Hibiscus—Rose of Sharon

Beautiful exotic flowers, white, pink and blue.

	Each	Per 10	Per 100
2 to 3 ft.50	4.00	
4 to 5 ft.75	7.00	

Hydrangea arborescens grandiflora Hills of Snow

Immense flat white flowers from early June until frost comes.

2 to 3 ft.50	4.50	
-----------------	-----	------	--

Hydrangea paniculata grandiflora Common Hydrangea

Immense white trusses sometimes over a foot long which change to a beautiful deep rose when the frost comes.

3 to 4 ft.50	4.00	26.00
4 to 5 ft.65	5.50	46.00
5 to 6 ft.	1.00	7.50	55.00
6 to 7 ft.	1.25	10.00	

Ilex verticillata Winterberry

Excellent for a fall or Christmas decoration where its bright red berries play a prominent part.

1½ to 2 ft. extra heavy....	.50	4.50	40.00

2½ to 3 ft. extra heavy....	.90	8.00	70.00
3 to 4 ft. extra heavy....	1.00	8.50	

Kolkwitzia amabilis Beauty Bush

Branches literally alive with multitudes of bright rosy-pink flowers.

1½ to 2 ft.50	4.50	
2 to 3 ft.60	5.00	

Ligustrum amurense Amoor River Privet

Habit similar to the California variety. Very hardy, indeed.

2 to 3 ft. bushy....	.20	1.90	14.00
3 to 4 ft. bushy....	.30	2.40	16.00

Ligustrum ibolium

A late introduction. A cross between the California and Ibota. One of the most desirable for hedge work.

1½ to 2 ft. bushy....	.12	.85	7.50
2 to 2½ ft. bushy....	.20	1.45	11.00
2½ to 3 ft. bushy....	.25	1.60	13.00
3 to 4 ft. bushy....	.30	2.25	16.00
4 to 8 ft. bushy....	.40 to 1.00	each	

Ligustrum regelianum Regel's Privet

A spreading form, low-growing and very desirable.

1½ to 2 ft. spread....	.35	3.00	22.00
2 to 2½ ft. spread....	.50	4.00	30.00
2½ to 3 ft. spread....	.55	4.50	40.00
3 to 4 ft. spread....	.70	6.00	45.00

Lonicera tatarica Pink Honeysuckle

Very desirable with its beautiful shell-pink flowers appearing in May. Beautiful red berries by the thousands in early fall.

2 to 3 ft.40	3.00	
3 to 4 ft.50	3.50	
4 to 5 ft.60	5.00	
4 to 8 ft. specimens....	1.00 to 4.00	each	

Lonicera tatarica alba

White Honeysuckle

A white-flowering form of the above.

	Each	Per 10	Per 100
3 to 4 ft.50	3.50	
4 to 5 ft.60	5.00	
5 to 6 ft.80	7.00	
5 to 10 ft. specimens	1.00 to 5.00	each	

Philadelphus Avalanche

Dwarf Syringa

A dwarf form literally covered with beautiful white flowers.

2 to 3 ft.50	4.50	34.00
3 to 4 ft.65	5.50	40.00

Philadelphus coronarius

Mock Orange

One of the most popular of the sweet-smelling syringas.
Pure white flowers in July.

2 to 3 ft.35		
3 to 4 ft.45	3.50	24.00
4 to 5 ft.55	4.00	26.00
5 to 6 ft. heavy80	7.50	50.00
6 to 10 ft. specimens	1.50 to 4.00	each	

Philadelphus coronarius aurea

Golden Syringa

Semi-dwarf in habit with bright colored foliage.

1 to 1½ ft.50	4.00	
1½ to 2 ft.60	5.00	

Philadelphus c. grandiflorus

Large-flowered Syringa

Very beautifully shaped deep white flowers.

3 to 4 ft.50	4.00	
4 to 5 ft.60	5.00	
5 to 6 ft.75	6.00	
5 to 7 ft. specimens	1.00 to 4.00	each	

A Woodland Planting at Cherry Hill.

Philadelphus lemoinei

A semi-dwarf variety. Flowers a delightful depth of ivory.

	Each	Per 10	Per 100
2 to 3 ft.45	4.00	
3 to 4 ft.60	5.00	
4 to 5 ft.75	6.00	

Philadelphus virginal

Fragrant Syringa

Of a delightful aroma. Beautiful white semi-double flowers.

2 to 2½ ft.50	4.00	30.00
2½ to 3 ft.60	5.00	40.00
3 to 4 ft.70	5.50	45.00
4 to 5 ft.80	6.50	50.00

Rhodoty whole kerrioides

White Kerria

Semi-dwarf and very attractive. Flowers of a beautiful white, followed by purplish black berries.

2 to 3 ft.50	4.50
-----------------	-----	------

Rhus canadensis

Fragrant Sumac

Taking its name from its delightful fragrance, leaves turning to a bright scarlet in the fall.

2 to 3 ft.60	4.00	36.00
3 to 4 ft.65	5.00	45.00
4 to 5 ft.80	7.00	

Rhus cotinus

Smoketree

Very unique foliage resembling a deep cloud of smoke.

2 to 3 ft.80	7.00
3 to 4 ft.	1.00	8.50
4 to 5 ft.	1.25	11.00

Rhus glabra

Smooth Sumac

Bearing spikes of deep red. Foliage turns to the same color in the fall.

2 to 3 ft.40	3.00	26.00
3 to 4 ft.50	3.50	30.00
4 to 5 ft.60	5.00	35.00

Rhus typhina

Staghorn Sumac

A very unique variety with its top growth giving the appearance of a deer's horns.

5 to 6 ft.60	4.50	40.00
6 to 8 ft.80	6.50	50.00
8 to 10 ft.	1.25	10.00	

Spiraea arguta

Snow Garland

Semi-dwarf growing with a multitude of arching branches bearing thousands of snow-white blossoms.

2 to 3 ft. bushy.40	3.60
3 to 4 ft.50	4.00

Spiraea bumalda, Anthony Waterer

Waterer's Spirea

A dwarf variety having its blossoms in flat heads of deep rose-pink.

1 to 1½ ft.30	2.50
1½ to 2 ft.40	3.00

Spiraea callosa alba Dwarf White Spirea

A white-flowering form of the above.

	Each	Per 10	Per 100
1½ to 2 ft.....	.40	3.00	
2 to 2½ ft.....	.50	3.50	

Spiraea trichocarpa

Similar to Van Houttei but more spreading in habit.

2 to 3 ft.....	.40	3.60	
3 to 4 ft.....	.55	5.00	45.00
4 to 5 ft.....	.80	7.00	55.00
5 to 6 ft.....	1.10	10.00	

Spiraea van houttei

St. Peter's Wreath

One of the heaviest flowering white plants having the appearance of wreath upon wreath.

2 to 3 ft.....	.35	2.70	20.00
3 to 4 ft.....	.40	3.10	22.00
4 to 5 ft.....	.50	4.00	28.00
5 to 6 ft.....	.70	5.50	

Syphoricarpos chenaulti

Improved Coral Berry

An improved form of the common Coral Berry.

2½ to 3 ft.....	.55	5.00
3 to 4 ft.....	.75	6.00

Syphoricarpos racemosus

Snow Berry

Very attractive and desirable on account of its beautiful white marble-shaped fruit continuing into early winter.

2 to 3 ft.....	.40	2.50
3 to 4 ft.....	.45	3.20
4 to 5 ft.....	.55	4.50

Syphoricarpos vulgaris

Coral Berry

Unique clusters of small red berries in the fall.

2½ to 3 ft.....	.35	2.70
3 to 4 ft.....	.45	3.20

Syringa chinensis

Chinese Lilac

A very beautiful semi-drooping plant with bright lavender spikes, giving it the appearance of a fountain.

3 to 4 ft.....	.80	6.50
4 to 5 ft.....	1.00	8.50
5 to 6 ft.....	1.25	11.00
6 to 7 ft.....	2.00	17.50

Syringa josikaea

Blue Lilac

A strong-growing variety with spikes of deep blue. Very desirable on account of its blossoms coming much later than the other Syringas.

4 to 5 ft.....	1.00	9.00	80.00
5 to 6 ft.....	1.35	12.50	100.00
6 to 7 ft.....	1.75	15.00	
5 to 8 ft. specimens.....	2.50	and up	
6 to 10 ft. specimens.....	2.50	to 5.00	each

Syringa persica

Persian Lilac

One of the most attractive of the Syringas with its arching branches and finely cut foliage. Flowers small, blue and very delightful.

	Each	Per 10	Per 100
3 to 4 ft.75	6.50	60.00
4 to 5 ft.	1.00	9.00	80.00
5 to 6 ft.	1.25	13.50	100.00
6 to 8 ft. specimens....	2.00 to 4.00 each		

Syringa persica alba

White Persian Lilac

A white form of the above.

5 to 6 ft.	1.60	14.50
6 to 7 ft.	2.00	18.50
6 to 8 ft. specimens....	2.50 to 4.00 each	

Syringa villosa

Japanese Lilac

Beautiful lavender flowers appearing in late June.

2½ to 3 ft.60	5.50	40.00
3 to 4 ft.75	6.50	55.00
4 to 5 ft.	1.00	8.50	
6 to 8 ft. specimens....	3.00 to 6.00 each		

Syringa vulgaris

Common Purple Lilac

Too well-known to need any further description.

2½ to 3 ft. bushy....	.60	5.00	40.00
3 to 4 ft. bushy....	.70	6.00	50.00
4 to 5 ft. bushy....	1.00	9.00	75.00
5 to 6 ft. bushy....	1.60	14.50	110.00
6 to 8 ft. bushy....	2.50	22.50	210.00
5 to 8 ft. specimens....	4.00 to 10.00 each		

Syringa vulgaris alba

White Lilac

Beautiful white form of the above.

2½ to 3 ft. bushy....	.65	5.00	45.00
3 to 4 ft. bushy....	.75	6.50	50.00
4 to 5 ft. bushy....	1.25	10.00	90.00
5 to 6 ft. bushy....	1.50	13.50	120.00
6 to 8 ft. bushy....	2.50	25.00	225.00
5 to 8 ft. specimens....	5.00 to 8.00 each		

Syringa vulgaris hybrids in the following varieties and sizes can be supplied in strong vigorous plants:

	Each	Per 10	
2 ft.	1.00	9.00	
2½ ft.	1.25	11.00	
3 ft.	1.50	13.50	
3½ ft.	2.00	18.50	
4 ft.	2.50	22.50	
5 ft.	3.25	30.00	
6 to 8 ft.	4.00 to 8.00 each		
Specimens	7.00 to 15.00 each

7.00 for 10 where five or more of a variety are taken.

Can furnish apple trees in most varieties in 4 yr. to 6 yr., at prices from \$1.50 to \$3.00. Write for prices per 100.

SUMMER VARIETIES

Red Astrachan—Large, deep red, juicy, slightly acid.

Yellow Transparent—Bright yellow. Very good for both eating and baking.

Duchess—Good size, striped yellow and red, fine flavor.

FALL VARIETIES

Cortland—A new hybrid introduction exceeding even the McIntosh in color, flavor and keeping qualities.

Gravenstein—Large size, striped yellow and red, extra fine.

Red Gravenstein—A red variety of the above. Excellent.

Early McIntosh (Milton)—Same good qualities as McIntosh but ripening nearly a month earlier.

McIntosh—Dark red, good size, flesh white, extra nice.

Late McIntosh (Maeoun)—A McIntosh seedling ripening about a month later than the McIntosh but possessing the same qualities.

Transcendent Crab—Bright red and yellow, considered the very best for jelly.

Wealthy—Good size, medium red, good eater and cooker.

WINTER VARIETIES

Baldwin—Large, red and yellow, most popular winter apple.

Delicious—Dark red, very choice eating apple.

Northern Spy—Red and yellow striped, very juicy.

R. I. Greening—Large, green, fine for baking and cooking.

Roxbury Russet—Rich, golden, great keeper, fine flavor.

PEARS

No. 1, 11-16 in., 5 to 7 ft.90 8.00

Larger sizes a matter of correspondence.

Bartlett—Summer. Extra choice for eating or canning.

Clapp's Favorite—Early. Good eater.

Seckel—Fall. Small but sweet as honey.

Sheldon—Fall. Large and delicious.

Beurre Bosc—A very late variety of deep russet color and honey sweetness.

2 yr. only 1.00 9.00

PEACHES

No. 1, 4 to 6 ft.50 4.50

Belle of Georgia—Early, white flesh, good.

Carman—Medium early white, red cheek. Excellent.

Champion—August. White, fine eating.

Early Crawford—September. Yellow, a favorite.

Early Elberta—An early form of this popular variety, ripening about one week earlier.

Elberta—September. Yellow, good canner.

J. H. Hale—September. Yellow, fine color and flavor.

Late Crawford—October. Yellow, juicy.

Mountain Rose—Considered one of the best of the whites, medium early.

Old Mixon—October. White, free stone. Excellent.

Rochester—September. Yellow free stone. One of the finest of the new introductions.

CHERRIES Each Per 10

No. 1, 11-16 in., 5 to 7 ft.90 8.00

Black Tartarian—Large, luscious, black. Can't be beat.

Governor Wood—Yellow and red. Extra choice.

QUINCES

No. 1, 4 to 5 ft.80 7.00

Orange—Large, golden.

PLUMS

No. 1, 11-16 in., 5 to 7 ft.85 8.00

Abundance—Good sized, red, choice eating and canning.

Burbank—Dark red, great canner.

Damson—Small, blue. Excellent for canning.

GRAPE VINES

While some of these are old stand-bys, yet they are still worthy of a place in any garden.

Strong, 2 yr.40 3.50

Catawba—Large, juicy, red, choice.

Concord—Late, blue, an old popular variety.

Fredonia—The earliest blue grape, fruit large and sweet.

Moore's Early—Early, blue, large and fine eating.

Niagara—Large, white, honey-sweet.

Pocklington—Extra large golden-white. Excellent quality.

Portland—Extra good white. Very early.

Worden—A concord seedling but earlier. Fine flavor.

Caco—A new red variety considered the best out. .65 each

RHUBARB

Victoria—Very reliable15 1.25

Roses

In making up our list of roses for our 1936 trade, we have endeavored to keep many of those listed in our 1935 catalog as we believe that the collection offered by us last year was really the cream of the popular-priced roses with which we are familiar. We are, however, adding a few of the latest introductions which we believe have merit and which we know will give the utmost satisfaction.

A light clay soil is the best for roses, but they will grow well in any good garden soil. For profusion of bloom they should be well fertilized and given plenty of water during the dry summer. In the fall hill up the earth and cover with mulch after the ground is frozen, and in the spring prune back to within eight or ten buds. All budded roses should be planted so that the union indicated by a crook in the stem is below the ground.

Dormant roses should be well watered and the tops cut back to about six inches in height and protected from the sun until the buds show growth, for the failure of most roses to live is due to a lack of moisture.

If possible, please give second choice of a variety as, unless advised to the contrary, whenever our stock of a variety is exhausted, we will make a substitution as near to color and habit as possible.

Prices on roses are for dormant plants which we can furnish until about May 1st. After that time we can supply potted plants for June blooming. These will be at an increase of 15 cents per plant.

HYBRID TEA OR EVER-BLOOMING ROSES

These will give an abundance of bloom from June until frost. They should be liberally fertilized every year and given some protection from the sun and frost during the winter.

	Each	Per 10
Strong dormant plants, No. 175	7.00
Strong dormant plants, Medium Size55	5.00

(Unless otherwise noted)

Ami Quinard—New. Very dark red. Strong, vigorous growth. Very desirable. 90 cents each.

Angele Pernet—Semi-double flowers of golden-yellow, beautifully shaded with brownish-orange. Very fine.

Better Times—(Jos. H. Hill & Co. Plant Patent No. 23) New. Large double brilliant cerise flowers, delicately fragrant. Its success is indication of the name. \$1.50.

Betty Uprichard—Coppery-pink with orange shadings. The back of the petals is carmine-pink. One of the best.

Briarcliff—Well shaped flowers of silvery-pink with golden lights at base of petals. Should be in every planting.

Cut your dormant roses back quite a little before planting out.

Charles K. Douglas—A good bright red for the garden, as it holds its color and blooms freely all summer.

Columbia—Bright pink flowers of good form.

Countess Vandal—Plant patent No. 38. Long pointed buds of golden-salmon, with coppery lights. Fragrant. A valuable new rose. \$1.00

Editor McFarland—New. Called by its originator the finest deep pink garden rose in existence. \$1.00

E. G. Hill—Brilliant red flowers of fine form and fragrance. Should be in every garden. 90 cents each.

Etoile de France—Dazzling crimson flowers produced freely throughout the summer.

Etoile de Holland—Glowing crimson-red blossoms. Hardy and vigorous. One of the world's finest.

Frank Dunlop—Beautiful rose-pink. Extra good bloomer.

Gruss an Teplitz—Bright crimson-scarlet. Blooms abundantly and continuously throughout the summer.

Joanna Hill—Long, shapely buds of orange-yellow, changing to deep cream with orange shadings at base of petals. A charming variety. 80 cents each.

K. A. Victoria—Well formed, pointed buds of creamy-white. One of the most satisfactory varieties.

Killarney Pink—Charming, pointed buds of soft pink.

Killarney Queen—Has more petals than Killarney and the color lies between Killarney and Killarney Brilliant.

La France, Silvery pink. Large full flowers.

Leonard Barron—Beautiful salmon and copper-rose. Large blooms nearly 5 inches in diameter. Very full. \$1.00

Los Angeles—A very popular and desirable variety.

Mary Hart—Plant patent No. 8. A red sport of Talisman, which it resembles in form and growth. The color is deep maroon-red with velvety shadings. \$1.00 each.

Mme. Butterfly—Long, tapered buds open into superb flowers of shell-pink blended with apricot and gold.

Mme. Caroline Testout—Satiny rose, free flowering.

Mme. Edouard Herriot—Coral-red with golden lights. It should be in every garden.

Mrs. Chas. Bell—Extra good shell-pink.

Mrs. E. P. Thom—A very fine, dependable yellow which does not fade and is of strong growth.

Mrs. Pierre S. duPont—Deep golden-yellow, both in bud and flower. It blossoms continuously on strong canes and we can recommend it. 90 cents each.

Nigrette—New. Plant Patent No. 87. "The black rose of Sangerhausen." One of the darkest of our new introductions. \$2.00 each

Padre—Semi-double flowers of coppery-orange.

President Herbert Hoover—Vigorous, healthy, plants produce flowers showing blends of soft pink, orange and gold. Very popular.

Radiance—Rose-pink flowers of globular shape. Plant vigorous and hardy.

Red Radiance—A variation of the above, having rose-red flowers.

Rapture—Pink with golden lights at base of petals. This variety has few thorns, which makes it desirable for cutting.

Souvenir—Plant patent No. 25. A golden form of Talisman, having same form and habit, except that blooms are pure yellow in bud and flower. \$1.00 each.

Souvenir de Claudius Pernet—Striking, deep yellow buds, which hold their color well as the petals open. Vigorous in growth and very satisfactory.

Souvenir de Georges Pernet—Unique, brick-red buds opening terra cotta pink.

Sunburst—Rich yellow with deeper copper-colored lights.

Talisman—Golden-yellow petals lined with orange-red. Especially effective when in bud. With us it has bloomed freely and continuously.

Token—Plant patent No. 95. Rich apricot color. Very popular and a free bloomer. \$1.50

JUNE-BLOOMING ROSES

	Each	Per 10
Strong 2 yr. plants, No. 1.....	.70	6.00
Strong 2 yr. plants, Medium Size.....	.55	4.50

American Beauty—Cerise-red, very full double.

Frau Karl Druschki—Pure white, large flowers.

Gen. Jacqueminot—The well-known deep crimson.

Paul Neyron—Deep rose-pink, large and well formed.

Ulrich Brunner—Globular flowers of cherry red.

CLIMBING AND RAMBLER ROSES

Strong 2 yr. plants, No. 1.....	.60	5.50
---------------------------------	-----	------

Alida Lovett—Very fine shell-pink flowers of large size. Of vigorous, rapid growth.

American Pillar—Single flowers of bright pink with white center. Blossoms in huge clusters.

Aviateur Bleriot—Buds of deep saffron-yellow changing to pale yellow as the flower expands.

Blaze—Plant patent No. 10. A cross between Paul's Scarlet Climber and Gruss an Teplitz. The new, continuous blooming scarlet climbing rose. \$1.50 each.

Climbing American Beauty—Rich carmine-rose, very attractive.

Dr. W. van Fleet—Shell-pink flowers of large size, equaling in form a tea rose. One of the most popular of climbing roses.

Dorothy Perkins—An extremely vigorous, hardy rose. Bright pink.

Excelsa—We offer this instead of the well-known Crimson Rambler, as we believe it to be superior in hardiness and permanence of color.

Gardenia—Yellow buds and creamy-yellow flowers. Dark glossy green foliage and strong growth.

Golden Climber—Plant patent No. 28. A very fine new rose. Golden-yellow flowers of large size are produced on long stems. \$2.00 each

Jacotte—Beautiful orange bud opening into a larger pink-apricot flower. Strong grower and glossy foliage. Scarce.

70 cents each

Mary Lovett—Large, pure white flowers and vigorous growth. Considered by many to be the best white climbing rose.

Mary Wallace—Large flowers of warm pink and borne in profusion on long stems. Excellent for cutting. The plant is hardy and vigorous and popular everywhere.

Mme. Gregoire Staechelin—Beautiful crimson buds opening into an entrancing pink. Glorious indeed. New.

70 cents each

New Dawn—Plant patent No. 1. Pale pink or pearly white. A continual bloomer from June until frost. Similar to Dr. W. van Fleet. \$1.50 each

Paul's Scarlet Climber—The best new crimson rambler. Holds its bright color until petals fall.

Primrose—New. A hardy climbing rose, producing double canary-yellow flowers which do not fade white. Considered the best yellow for the North.

Setigera—The Prairie Rose. Very strong, bushy growth, suitable for hedges and screens. Flowers are pale pink and single in form.

Silver Moon—A climbing rose with dark green, glossy foliage. Large single flowers of pure white.

Tausendschon—Large trusses of soft pink flowers in great abundance.

Wichuriana—Memorial Rose. Glossy green foliage is borne on twining or creeping stems. Good for ground covers. Single flowers of pinkish-white.

VARIOUS ROSES

	Each	Per 10
Baby Rambler —(Polyantha) As listed below	.60	5.00

Catherine Zeimet—White.

Ellen Poulsen—Bright pink flowers in abundance throughout the season. The plants are dwarf and are fine for edging.

George Elger—Yellow baby rambler. Much sought after.

Golden Salmon—Salmon-orange buds and flowers. Striking.

Gruss an Aachen—Pale pink with deeper shadings and golden lights. Large flowers on dwarf, compact plants.

Ideal—Dark velvety crimson which holds its color well. Very bright and attractive.

Ingar Ollson—New. Semi-double; brilliant pink. Large foliage. 70 cents each.

Harrison's Yellow—Bright yellow. A lovely shrub which is covered with double, fragrant, yellow blooms in May.

Hugonis—Charming soft yellow single flowers in profusion in early June. Makes a large shrub for the border or as specimen plant.

	Each	Per 10
Strong 2 yr. plants65	5.50

Miss Edith Cavell—Deep velvety crimson.

Persian Yellow —The old-fashioned double yellow rose, blooming in early summer.65	5.50
--	-----	------

Rosa rouletti—The dwarfest of all dwarf roses. Very attractive. Medium bright pink buds. Strong. 3 in. pots 50 cents

Rosa Rugosa (Japanese Rose) A very useful and ornamental spreading shrub with glossy green foliage untroubled by fungus or insects. Single crimson flowers followed by ornamental scarlet fruit. Good for seashore or other exposed plantings.

1 to 1½ ft.40	3.50
1½ to 2 ft.50	4.00
2 to 2½ ft.60	5.00

Rosa Rugosa Alba (White Japanese Rose)

1½ to 2 ft.60	5.00
2 to 2½ ft.75	6.50

ROSA RUGOSA HYBRIDS

These are new hybrids having the splendid foliage and habits of the rugosa. Perfectly hardy.

Strong plants60	5.50
-------------------------	-----	------

Agnes—A yellow Rugosa. Double flowers of medium size. Lasting and very fragrant. Amber with a deeper center.

Belle Poitevine—Bright pink, full double flowers.

Conrad F. Meyer—Good-sized, double flowers of shell pink.

Dr. E. M. Mills—Double yellow. Very choice.

Hansa—Double, rich maroon-red. Very attractive both in bud and bloom.

Sarah Van Fleet—Semi-double, beautiful wild rose pink.

.70	6.00
-----	------

Sir Thomas Lipton—Clusters of pure white double flowers.

F. J. Grootendorst—A hybrid between Rugosa and Baby Rambler; it has the foliage of the former and the free-flowering habit of the latter. Small double crimson flowers in large clusters throughout the season.

Pink Grootendorst—New. A form of the above with bright shell-pink flowers of a very attractive shade. Blooms freely and continuously.

Peonies

This magnificent group of flowering plants is one of the hardiest and most persistent for our northern climate. They will grow as far south as Alabama, but seem to like best the colder regions and, once established, will continue to bloom well for fifteen or twenty years without disturbance. They may be fertilized, but care should be given not to feed too heavily at one time, especially with stable manure. Bone meal and wood ashes are always good.

For many years Peonies have been one of the specialties at Cherry Hill and we have gathered the best from all over the world and by careful propagation have built up the CHERRY HILL STRAIN, which has won gold medals at the American Peony Society Shows at Detroit, Boston and London, Ontario.

We have consistently reduced our prices as stocks have increased so that you may now obtain many fine varieties much less than a few years ago. While you may find some quotations lower than ours, the quality and size of Cherry Hill peonies should be taken into consideration.

Peonies may be planted almost any time of the year, but are usually planted in the fall, from September to November, and early in the spring before the new growth starts too much. The roots should be planted so that the buds are about two inches below the surface when the ground has settled around them. Too deep planting will result in good foliage but no blooms; in fact this is almost always the cause for lack of blooms.

Sizes marked L.D. (large divisions) should give excellent results. Plants one year from division are larger, where quicker results are desired.

SERIES A

The varieties offered in this series are those which have originated at Cherry Hill. Although we have produced thousands of seedlings we have been most careful in checking and rechecking from year to year and have only selected those of uniformly high quality. This has been proved by the high rating, 8.5 and over, which they have received from the American Peony Society. Others not yet named, will not be introduced until we are sure that they will come up to the same high standard.

(Originated at Cherry Hill)

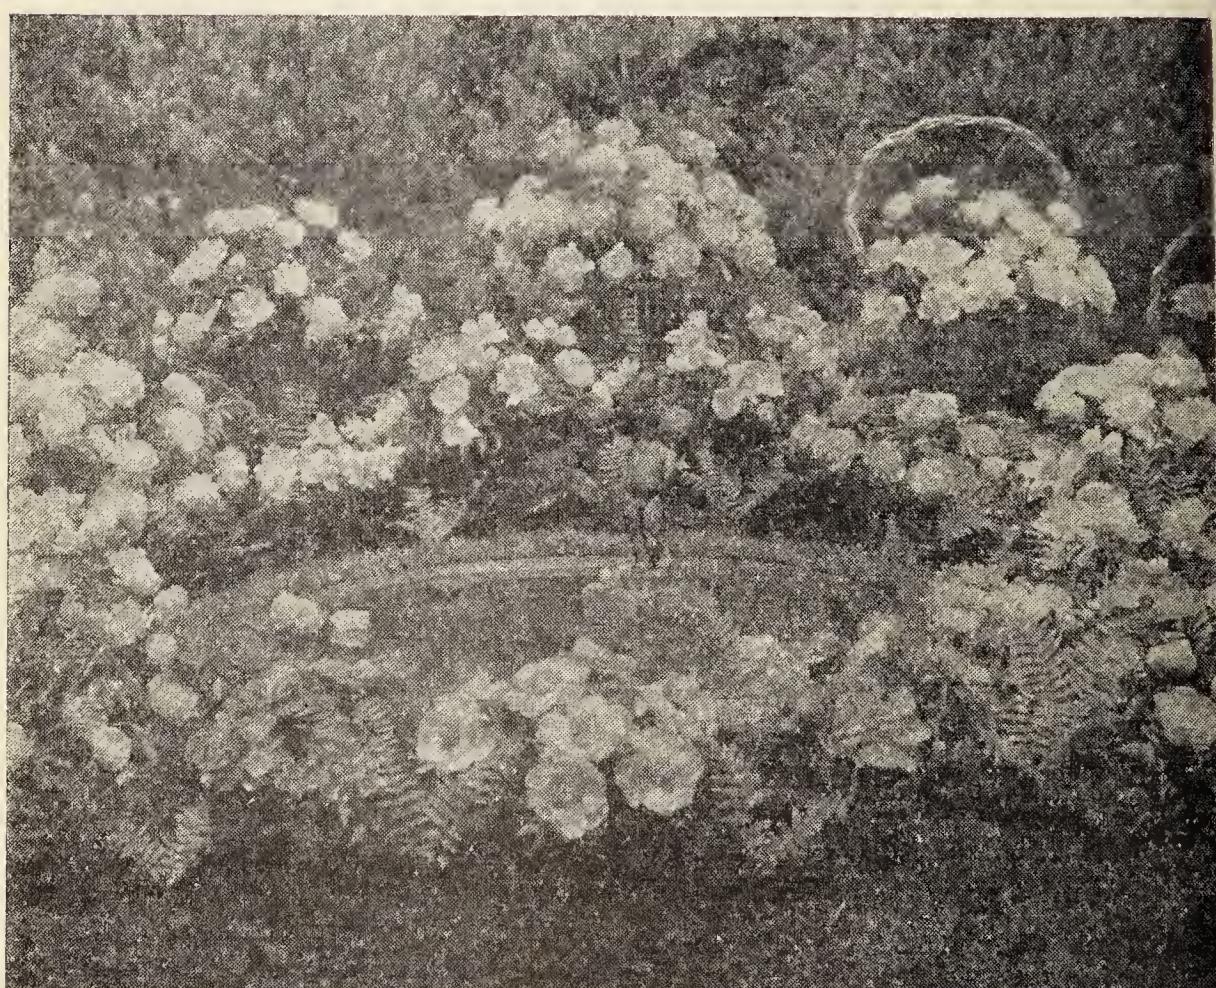

A.P. Saunders (1919), large flesh-pink flowers, shaded to 8.6 nearly white in the center, outer petals sometimes marked carmine. The long petals unfold from a slowly loosening ball in the center until they finally make a rose form flower. Slightly fragrant. Latc. L.D. \$2.50. 1 yr. \$4.

Betty Blossom (1925), lovely white guard petals faintly
8.7 tinted yellow and center petals clear white inter-mixed
with a collar of short, narrow stamenoides heavily
edged yellow. Total effect charming soft yellow. Late
midseason. Certificates of Merit, A.P.S. 1923. L.D.
\$3.50. 1 yr. \$5.

Black Prince (1915), single. Very deep crimson with a dull
8.5 satiny sheen and a mass of golden stamens. If side buds
are not cut off, plant will continue to flower for a con-
siderable period. Medium height and stiff stems, excel-
lent foliage. L.D. \$1.50, 1 yr. \$2.

Cherry Hill (1915), deep granet with a sheen which gives a
8.6 very bright appearance in the garden. Some blooms will
have a center of golden stamens, while well established
plants often produce full double flowers. With us, the
earliest double variety in bloom. The tall, strong stems
with excellent foliage make this a very attractive va-
riety for the garden. L.D. \$1.50. 1 yr. \$2.

Edwin C. Shaw (1919) very large flowers of flesh-pink with
9.1 broad rounded petals with occasional traces of red on
outer edges. Of very symmetrical form and cupped
shape, this variety is especially attractive both for cut
flowers and for garden effects. Delicious fragrance. Late
midseason. L.D. \$5. 1 yr. \$7.

Part of our Gold Medal Exhibit at Boston.

Governor Fuller (1930), large globular flowers of fresh shell-pink shading somewhat deeper toward the center.
8.8 Petals long and broad and well rounded, except those in the center which are much shorter, giving a delightful cupped effect. Strong stems and good foliage. Fragrant. Late. Like many of the best varieties, this needs a year or two to become established to give the best flowers. L.D. \$7. 1 yr. \$10.

Helen (1922), stems very tall and erect, and broad, dark green foliage. A double row of broad rounded petals of deep shell-pink surround a mass of golden stamens. The petals are of good substance and hold their attractive cup shape without drooping. The earliest to bloom.
8.9 L.D. \$5. 1 yr. \$7.

James Boyd (1919), flesh-pink, tinted cream and buff in center gradually changing to nearly white with golden lights at the base of the petals. Very fragrant. Late. Stiff stems and upright habit with good foliage. L.D. \$1.50. 1 yr. \$2.

James R. Mann (1920), large rose-pink with one or two crimson streaks in the center of the flower and an occasional marking on back of guard petals. Central petals incurved, give a very graceful effect. Midseason. Plants need to become well established before producing the best flowers. L.D. \$2. 1 yr. \$3.

Katherine Havemeyer (1921), large blooms of light rose-pink. Guard petals rounded, somewhat notched at the ends, full, high center. The center petals are incurved, giving the flower a perfect rosebud center. Fragrant. Midseason to late. Excellent both for cut flowers and garden use. Honorable Mention A.P.S., 1922. L.D. \$4. 1 yr. \$5.

Nymphaea (1919), large, flat flowers with wide silky petals of creamy-white. Yellow stamens are mixed among the petals, giving flower a reflex of golden light. The edges of the petals are somewhat rolled, giving a water-lily effect; hence its name. Mildly fragrant. Midesason. L.D. \$1.50. 1 yr. \$2.

President Wilson (1918), bright rose-pink, changing to shell-pink as flower opens, petals broad and over-lapping, with cupped center. The blooms will last a long time and hold their delicate coloring until the end. Spicy fragrance. Late. Described by Mr. Boyd in the Peony Manual as "a perfect beauty." Honorable Mention A.P.S., 1922. L.D. \$6. 1 yr. \$8.

Pride of Essex (1916), large cup-shaped blooms of deep shell-pink suffused yellow from the stamens interspersed with the petals. Clear fragrance. Midseason. Similar in coloring and habit to Lady Alexandra Duff, but flowers are larger and borne on longer stems. L.D. \$1.50. 1 yr. \$2.

Sarah K. Thurlow (1921), large flowers of faint pink in bud, 9.1 changing to pearly white, flushed pink in the center. The petals are rounded, giving a "finished" effect to the blooms which is difficult to describe. The stems are long and slender but support the flowers well. Rose fragrance. Very late. L.D. \$2.50. 1 yr. \$4.

Thomas C. Thurlow (1919). This is another variety of elusive coloring. The flowers are not at their best until the plant is well established. Broad petals of salmon-flesh changing to white and lighted by narrow petals edged and crusted with yellow. Strong stems of medium height. Fragrant. Midseason. L.D. \$6. 1 yr. \$8.

SERIES B

Prices quoted are for large divisions (L.D.) of at least three to five buds, and one year (1 yr.) plants.

For two-year clumps add 50 per cent to the one-year price.

Three-year clumps at double the price of one-year plants.

The large divisions are strong plants that will give a good account of themselves but, of course, the larger sized clumps will produce quicker results.

In this series are listed the finest varieties which we have been able to obtain in this country and Europe. We grow and test many new varieties and those which we consider to have outstanding merit are propagated and offered for sale from year to year. We endeavor to select for propagating the strongest individual plants to build up a strain having vigor, hardiness and free-blooming qualities which will produce the finest flowers. We call this the CHERRY HILL STRAIN and from this stock have been selected the blooms which have won many prizes. By planting these strong, healthy roots, we believe that you, too, will have an abundance of flowers of the first quality.

Alice Harding (Lemoine 1922) large flowers with broad 9.4 rounded guard petals of delicate pink and center petals of creamy-white. Fragrant. Midseason. Good form and habit of growth. Lemoine considers this his best introduction. L.D. \$10. 1 yr. \$12.50.

Argentine (Lemoine 1924) large globular flowers, white 8.7 with creamy center. Broad petals of good substance. Fragrant. Midseason. L.D. \$8. 1 yr. \$10.

Auguste Dessert (Dessert 1920), flowers of rose form with 8.7 broad, rounded petals somewhat notched, bright rose-pink with silvery edges. A center and ring of golden stamens light up the flower so that it is bright and attractive. An especially fine variety for garden effects. Midseason. L.D. \$2. 1 yr. \$3.

Letting your peonies seed in will produce plants untrue to name.

Blanche King (Brand 1922), very attractive globular flowers
8.9 with large overlapping petals. Dark pink with a silvery
sheen. Stiff stems and upright habit. Late midseason.
L.D. \$5. 1 yr. \$7.

Cornelia Shaylor (Shaylor 1917), a full, well-formed flower
9.1 of pyramidal shape; guard petals and collar of a faint
pink, softening to white, and deeper shell-pink center.
An extra good variety. L.D. \$3. 1 yr. \$4.

Coronation (Kelway 1902), delicate tinted buds opening into
8.5 creamy-white flowers, back of guard petals very pale
pink. Base of petals show golden light and the symmet-
rical blooms are very charming. Late midseason. L.D.
\$1.50. 1 yr. \$2.

Denise (Lemoine 1924), large, flowers of white faintly tinted
8.7 pink with occasional marks of crimson on center petals.
Fragrant. Strong upright stems. L.D. \$7.50. 1 yr. \$9.

E.B. Browning (Brand 1907), delicate cream-colored bud,
9.2 opening into a very fine white flower of large size. Late.
L.D. \$1.50. 1 yr. \$2.

E. J. Shaylor (Shaylor 1918), globular, compact bloom of rose
8.6 pink, petals tipped lighter. This variety is very distinct
because of a ring of golden-edged and golden-tipped
petals. Strong upright stems of medium height. Mid-
season to late. L.D. \$2. 1 yr. \$3.

Elisa (Dessert 1922), large flowers of soft flesh-pink of semi-
8.5 double form. Stamens mixed among the petals give
golden lights. Strong, erect stems make this a good
garden variety. Pleasant fragrance. Midseason. L.D.
\$1.50. 1 yr. \$2.

Enchanteresse (Lemoine 1903), large globular flowers of
8.9 creamy-white, sometimes showing flecks of carmine. A
tall, strong grower and exceptionally fine variety. Late.
L.D. \$1.50. 1 yr. \$2.

Eugene Bigot (Dessert 1894), a very fine brilliant crimson,
8.3 of upright habit and medium height. One of the most
conspicuous of this color. Late midseason. L.D. \$1.50.
1 yr. \$2.

Eugene Verdier (Calot 1864) rather dwarf with very stiff
8.3 stems bearing flowers of deep shell-pink inter-mixed
with creamy-yellow. Distinct. Late. L.D. \$1.50.
1 yr. \$2.

Florence Macbeth (Sass 1924) immense rather flat flowers of
9.0 soft blush with deeper lights. Strong stems and heavy
foliage. Late. L.D. \$3.50. 1 yr. \$5.

Frances Shaylor (Shaylor 1916), globular flowers of irides-
8.6 cent white petals interspersed with incurved yellow
stamenoids. A very distinct variety. Dwarf plant.
midseason. L.D. \$1.50. 1 yr. \$2.

Frances Willard (Brand 1907), tall, strong grower, producing
 9.1 creamy-white flowers of large size yet delicate texture.
 Late midseason. One of the best of the Brand varieties.
 L.D. \$1.50. 1 yr. \$2.

Frankie Curtis (Vories 1924), strong stiff stems bearing
 8.9 large white flowers resembling chrysanthemums—that
 is, the center petals are incurved and the outer petals
 recurved. Midseason. Might be described as a white M.
 Jules Elie. L.D. \$3.50. 1 yr. \$5.

Galathee (Lemoine 1900), large, compact, globular flowers
 8.1 of pearly-white, borne on long stems. Very late, but
 opens well and is superb. L.D. \$1.50. 1 yr. \$2.

Genevieve (lemoine 1925), very large, full flowers of creamy-
 8.6 white. Very late. L.D. \$5. 1 yr. \$7.50.

Gismonda (Crousse 1895) full double flowers of creamy-
 8.2 white with a rosy light deepening toward the center.
 Fragrant. Late. A very charming variety. L.D. \$1.50.
 1 yr. \$2.

Grace Loomis (Saunders 1920), tall, strong stems, bearing
 9.2 very full double flowers of clear white. Late. A fine
 variety. L.D. \$3. 1 yr. \$4.50.

Grandiflora (Richardson 1883), exceptionally large, flat
 8.8 flowers of silvery shell-pink. Petals pointed, giving
 very pretty effect. Very late. Extra. L.D. \$1.50.
 1 yr. \$2.

Grover Cleveland (Terry 1904), fine, dark crimson blooms on
 8.2 upright stems of medium height. Extra good for garden
 effects. Late. L.D. \$1.50. 1 yr. \$2.

H. A. Hagen (Richardson 1904), well-formed, cup-shaped
 8.2 flowers with broad rounded petals of deep rose-pink.
 Strong stems and good foliage. Late. This variety some-
 what resembles E. G. Hill but is a much better grower
 and blooms more freely. L.D. \$1.50. 1 yr. \$2.

Hansina Brand (Brand 1925), large flat flowers of deep shell-
 9.0 pink with salmon lights at base of petals. Strong, up-
 right stems and good foliage. L.D. \$5. 1 yr. \$7.50.

Hazel Kinney (Brand 1925), delicate flesh-pink flowers with
 8.7 broad over-lapping petals. Strong stems of medium
 height. Midseason. L.D. \$5. 1 yr. \$7.50.

Inspecteur Lavergne (Doriat 1924), broad guard petals
 8.6 with narrower petals in the center. Color, crimson with
 a touch of brown, quite new in any Peony. Early.
 L.D. \$5. 1 yr. \$7.

Jeannot (Dessert 1918), cup-shaped flowers of soft shell-pink
 9.2 slightly tinted lavender with salmon-pink lights at base
 of petals. Very late. L.D. \$1.50. 1 yr. \$2.

John Richardson (Richardson 1904), large flat flowers,
 8.2 center deep pink, gradually fading lighter towards the
 tips of the petals. Tall grower. Fragrant. Considered by
 many to be one of the best very late varieties. L.D.
 \$1.50. 1 yr. \$2.

Cut off all dead blossoms. It will make your plants thrive
 better.

Judge Berry (Brand 1907), very large flat blooms of soft pink
8.6 tinted lighter. Early. L.D. \$1.50. 1 yr. \$2.

June Day (Franklin 1920), large full flowers of shell-pink
9.0 deepening toward the center. Good form and substance
and an exceptionally fine variety. Midseason. L.D. \$2.
1 yr. \$3.

Kelway's Glorious (Kelway 1909), buds slightly tinted pink,
9.8 opening into large blossoms of iridescent white. Frag-
rant. Late, midseason. This is undoubtedly one of the
finest peonies. L.D. \$4. 1 yr. \$5.

Kelway's Queen (Kelway 1909). The true variety. Large,
8.8 globular blooms of fine form and habit. Deep flesh-
pink, with a few markings of carmine in the center.
Fragrant. Midseason. L.D. \$4. 1 yr. \$5.

Lady Alexandra Duff (Kelway 1902), one of the finest of the
9.1 Kelway productions. Very broad petals of soft blush-
pink, with flesh tints. Height medium and stems up-
right. A strong grower in every way. Midseason. L.D.
\$1.50. 1 yr. \$2.

La Fee (Lemoine 1906), globular flowers of rose-pink with a
9.2 silvery light and narrow creamy-yellow collar. Tall
wiry stems. Fragrant and early. L.D. \$2. 1 yr. \$3.

La France (Lemoine 1901). enormous, rather flat flowers on
9.0 strong stems. Soft pink, with lavender lights at base of
petals. Late. A very fine variety. L.D. \$2. 1 yr. \$3.

La Lorraine (Lemoine 1901), wonderful globular blooms of
8.6 creamy-white, borne high above the foliage. Golden
stamens are visible, giving a golden light to the open
flowers. Midseason to late. L.D. \$2.50. 1 yr. \$4.

Laura Dessert (Dessert 1913), creamy-white guard petals
8.8 deepening to a canary-yellow in center. The flowers are
of good size. Midseason. This is very similar to Prime-
vere but established plants will usually give better
flowers. L.D. \$2. 1 yr. \$3.

Le Cygne (Lemoine 1907), charming milk-white flower with
9.9 incurved petals. Oftentimes attains immense size but of
such exquisite form that it does not appear coarse. Gen-
erally considered the finest white peony. Midseason.
L.D. \$4. 1 yr. \$5.

Lillian Gumm (Gumm 1921), immense, very full double
8.9 blooms of even rose-pink with more brilliant lights at
base of petals. The stems are strong and this variety
makes a fine effect in the garden in late midseason.
L.D. \$2.50. 1 yr. \$4.

Longfellow (Brand 1907), brilliant crimson flower of large
9.0 size. Good reds are hard to find and this is very satis-
factory. Midseason. L.D. \$1.50. 1 yr. \$2.

Lorch (Goos & Koenemann), large, well shaped flowers of
8.7 white, showing creamy tints in the center. Rose scented.
Midseason. L.D. \$2. 1 yr. \$3.

Loveliness (Hollis 1907), large flat, very full flowers of light pink tinted lavender. Stem strong and upright. Late. L.D. \$1.50. 1 yr. \$2.

Mabel Franklin (Franklin 1920), pale pink gradually deepening toward the center. Extreme center composed of short creamy petals with lavender tints. Fragrant. Mid-season. L.D. \$2. 1 yr. \$3.

Madame Jules Dessert (Dessert 1909), exquisite flowers of large size; broad, delicate petals of a translucent texture. Creamy-white lighted with buff and salmon shades. A fine flower in every way, one of the best. Midseason to late. L.D. \$1.50. 1 yr. \$2.

Madelon (Dessert 1922), attractive rose-pink flowers of globular, compact form. Petals tipped lighter giving a brilliancy to the bloom. Late midseason. A fine variety. L.D. \$3.00. 1 yr. \$4.50.

Marie Crousse (Crousse 1892), globular blooms of a very delicate shell-pink, or deep flesh color. Stiff upright stems. Fragrant. A very attractive flower. Midseason to late. L.D. \$1.50. 1 yr. \$2.

Martha Bulloch (Brand 1907), tall, strong growth producing immense blooms of soft rose-pink, well formed and of good substance. Late. L.D. \$2. 1 yr. \$3.

Mary Brand (Brand 1907), deep brilliant red flowers. Medium height. Midseason. L.D. \$1.50. 1 yr. \$2.

Mary Woodbury Shaylor (Shaylor 1916), guard petals fresh shell-pink, center creamy-yellow with golden lights at base of petals. Plants dwarf with upright stems. Mid-season. One of Mr. Shaylor's best seedlings. L.D. \$1.50. 1 yr. \$2.

Milton Hill (Richardson 1891), very beautiful flower of a delicate shade of flesh color with pale salmon-pink tints; sometimes marked crimson. Of globular form and rather incurved petals; it is an exquisite flower in every way. Late. L.D. \$1.50. 1 yr. \$2.

Minnie Shaylor (Shaylor 1919), medium height and strong upright stems, bearing very large flowers of flesh-pink. Midseason. L.D. \$3. 1 yr. \$4.50.

Mrs. A. M. Brand (Brand 1925), large, rather flat flowers of pure white. The petals have a great deal of substance, giving the flower a fine form. Fragrant. Late. Gold Medal A.P.S., 1923. L.D. \$5. 1 yr. \$7.50.

Mrs. C. S. Minot (Minot 1914). Plants of medium height with stiff stems and dark foliage. Very large flowers, finely formed, with broad petals. Guard petals faint shell-pink center creamy-white with golden lights at base of petals. Late. L.D. \$3.50. 1 yr. \$5.

Mrs. Edward Harding (Shaylor 1918), large, pure white flower of fine quality. Petals are set close together without over-crowding. Midseason to late. L.D. \$2. 1 yr. \$3.

Mrs. E. J. Shaylor (Shaylor 1920), very large flower of delicate pink, petals broad and well rounded. Rather loosely built flowers but full. Late midseason. L.D. \$3. 1 yr. \$5.

Mrs. F. A. Goodrich (Brand 1925), deep pink with salmon lights which are very pleasing. Very late. L.D. \$8. 1 yr. \$10.

Mrs. Frank Beach (Brand 1925), large flowers of creamy-white. The petals are narrow and cut, giving the flower a lacy appearance. Late L.D. \$5. 1 yr. \$7.50.

Mrs. George Bunyard (Kelway 1898), finely formed flower of shell-pink changing to deep blush, underside of guard petals somewhat flecked green. Tall, strong stems bearing an abundance of flowers. Midseason to late. L. D. \$1.50. 1 yr. \$2.

Mrs. Harriet Gentry (Brand 1925), good sized flowers of glistening white with a greenish tinge at base of petals. Late. L.D. \$9. 1 yr. \$12.

M. Martin Cahuzac (Dessert 1899), very dark garnet or maroon; globular flowers of medium size on strong stems. Midseason. Very effective for landscape planting or for cut flowers. L.D. \$2. 1 yr. \$3.

Mont Blanc (Lemoine 1899), extremely large flowers of milky-white, very full. Petals of medium width, fringed at tips, giving a feathery appearance. Stems large and tall. Midseason. L.D. \$1.50. 1 yr. \$2.

Myrtle Gentry (Brand 1925), large full flowers of rosy-white or pale pink with salmon lights. Petals broad and rounded giving a bloom of fine form. Fragrant. Late. L.D. \$5. 1 yr. \$7.50.

Nick Shaylor (Allison 1931), a very fine new variety. Large, full blooms of creamy-white with pink and salmon lights, such as the indescribable colorings of Solange. Late. \$15. each.

Philippe Rivoire (Riviere 1911), very fine dark crimson, fully double. Midseason to late. Fragrant. It is a striking variety for the garden as its intensity of color makes it distinct. L.D. \$4. 1 yr. \$6.

Phyllis Kelway (Kelway 1908), large flowers of flushed pink, yet with delicate coloring which gives a fresh and charming effect. Strong, erect stems. Fragrant. Late L.D. \$2.50. 1 yr. \$3.50.

Pink Baroness Schroeder (Kelway). This variety is wholly distinct from Eugenie Verdier. Exceptionally large fine flowers, flat in form, of deep shell-pink with delicate tints. Extra good as a cut flower. Midseason. L.D. \$3. 1 yr. \$4.

Primevere (Lemoine 1907), guard petals deep creamy-yellow
8.6 and center petals sulphur-yellow. If not exposed to the
full sun the flowers will hold a canary-yellow effect
which is most attractive. Very fine. Midseason. L.D.
\$1.50. 1 yr. \$2.

Priscilla Alden (Roberts 1928), full, double flowers of white
9.1 borne on strong stems. Outer petals somewhat broader
than center. Early midseason. A very desirable new
variety. L.D. \$8. 1 yr. \$10.

Raoul Dessert (Dessert 1910), large blooms with broad
petals of shell-pink with deeper gleams. Distinct and
fresh coloring. Late midseason. Scarce. L.D. \$2.50.
1 yr. \$3.50.

Richard Carvel (Brand 1913), one of the best early reds
8.8 which we have. Large, bomb-shaped blooms of the
same style as Felix Crousse but better in color. Early.
L.D. \$1.50. 1 yr. \$2.

Rosa Bonheur (Dessert 1905), delightful flowers of fresh
9.0 soft pink. Petals even and incurved, giving a globular
shape. Plant rather dwarf and compact. Midseason.
L.D. \$2.50. 1 yr. \$4.

Rose Shaylor (Shaylor 1920), large, flesh pink with creamy
9.1 lights at base of petals, center creamy-white. Erect,
strong growth. One of the best of the Shaylor seedlings
and a fine variety. Midseason. L.D. \$8. 1 yr. \$10.

Sarah Bernhardt (Lemoine 1906), very large, well-formed
9.0 flowers of good quality. Delicate shell-pink of charming
freshness. Extra. Late. L.D. \$1.50. 1 yr. \$2.

Silvia Saunders (Saunders 1921), cup-shaped flowers of
9.0 bright rose-pink of an attractive shade, center of yellow
stamens and bright pink stigmas. Dwarf plant
with free-flowering habit. Early. Fine for garden effect.
L.D. \$4.50. 1 yr. \$6.00.

Solange (Lemoine 1907), extra large flowers with broad
9.7 rounded petals of fine form. Petals waxy-white but
suffused with a reddish-golden light, so that the total
effect is such as may be seen on a cloud at sunset. One
of the very finest. Late. L.D. \$2. 1 yr. \$3.

Souvenir de Louis Bigot (Dessert 1918), exceptionally
9.1 large blooms of a very distinct shade of rich salmon-
pink with silvery lights. Extra fine. Late midseason.
L.D. \$2. 1 yr. \$3.

Suzette (Dessert 1911), petals of brilliant rose-pink inter-
8.2 spersed with golden stamens. Strong stems that give a
profusion of blooms, literally covering the plants, making
this a fine variety for garden effects. Midseason.
L.D. \$1.50. 1 yr. \$2.

Sylviane (Lemoine 1924), broad guard petals of white and
8.4 center of narrower petals, pale yellow fading to white.
Midseason. L.D. \$6. 1 yr. \$8.

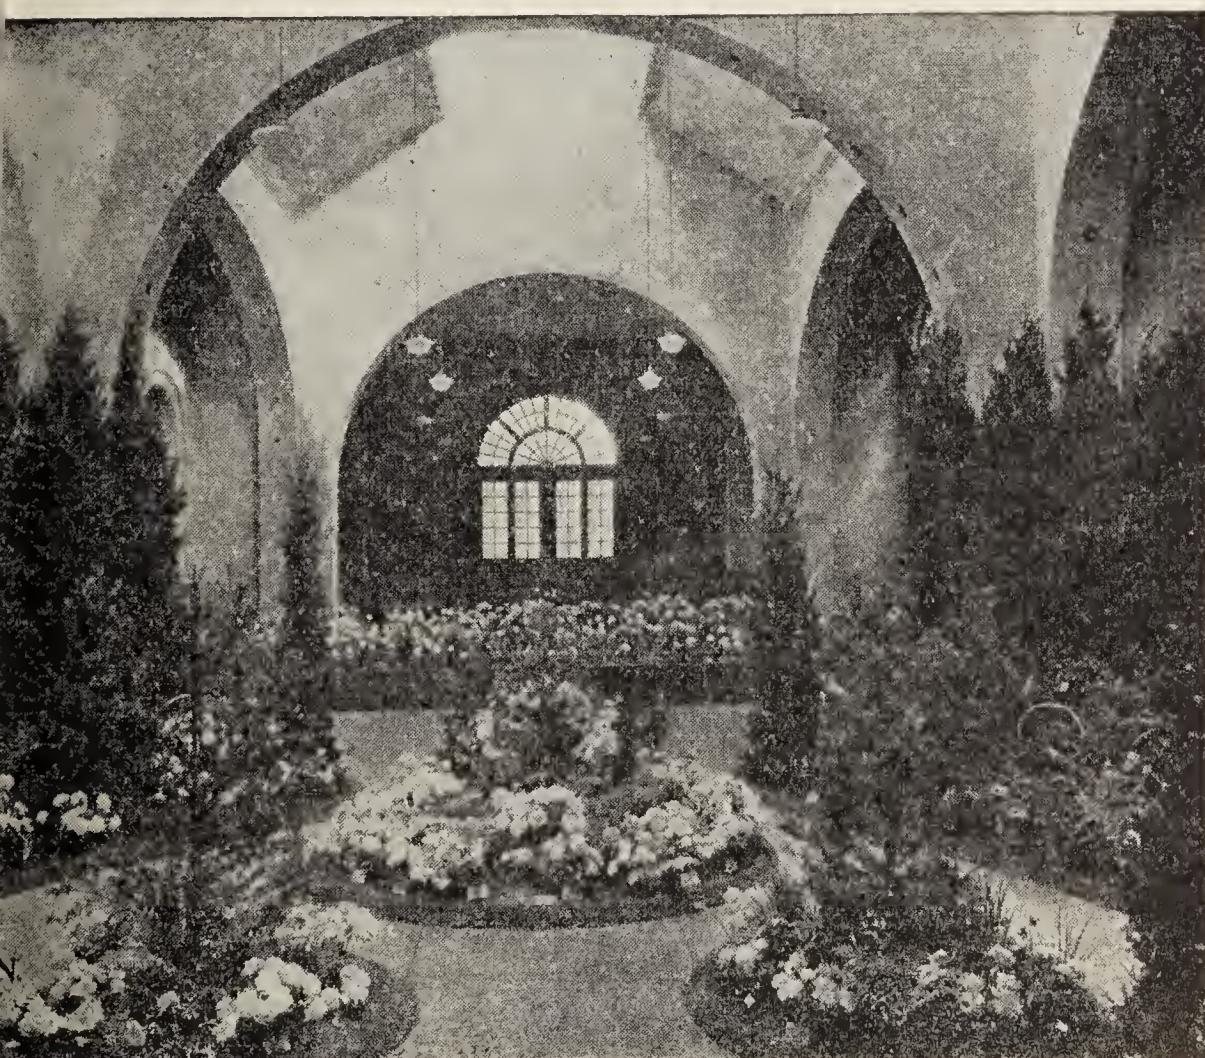

Therese (Dessert 1904), one of the very best and most satis-
9.8 factory variety in commerce. Vigorous and free-blooming,
producing large flowers of soft shell-pink with
lighted center. Stems medium height and good strength.
Midseason. L.D. \$1.50. 1 yr. \$2.

Tourangalle (Dessert 1910), cup-shaped flowers of delicate
9.4 creamy-white with deeper salmon shadings at base of
petals. Most unusual and beautiful coloring. Very frag-
rant. Late. L.D. \$1.50. 1 yr. \$2.

Victory Chateau Thierry (Brand 1925), very large blooms
8.9 of bright clear pink. Broad rounded petals of good sub-
stance make this a most attractive flower. Rather
dwarf. Early L.D. \$5. 1 yr. \$7.50.

Walter Faxon (Richardson 1904), medium-sized blooms of
9.3 vivid shell-pink with salmon shades. Usually described
as the only real pink peony. The blooms should be given
some protection from the sun to preserve the coloring.
Midseason. L.D. \$2. 1 yr. \$3.

William F. Turner (Shaylor 1916), very dark red or garnet.
8.4 Tall, strong grower and gives a fine spot of color in the
garden. Midseason. L.D. \$1.50. 1 yr. \$2.

Our Exhibit of Peonies Winning the Highest Award at the
Massachusetts Horticultural Society.

SERIES C

\$1.50 each; \$15.00 per dozen

Two-year clumps \$2.25 each; \$22.50 per dozen.

Three-year clumps \$3.00 each; \$30.00 per dozen.

The varieties listed in this series are those which have well established ratings. They have been tested and we can recommend their qualities of growth and bloom as satisfactory, and a selection for a border or mass planting will be found to give masses of color. They have been grown from the CHERRY HILL STRAIN and we feel sure that you will be delighted with them in your garden.

Addielanchea (Brand 1907), large, rather flat flowers of
8.5 creamy-white with a golden light at base of petals. Mid-
season.

Albert Crousse (Crousse 1893), large, well-formed flowers
8.6 soft shell-pink with faint salmon tints. Stems tall,
strong and vigorous. Fine as cut flower. Late.

Baroness Schroeder (Kelway 1899), one of the best and
9.0 most satisfactory white peonies. Immense globular
flowers, white guard petals, and a soft baby-pink center
becoming pure white. Stems very strong and vigorous.
medium green foliage. Late midseason.

Candeur (Dessert 1920), bright rose-pink with petals edged
8.4 white, giving a total effect of silvery pink. Well-formed
flowers and a fine garden variety. Midseason. Strong
grower and blooms freely.

Claire Dubois (Crousse 1886), very large globular blooms of
8.7 satiny pink, petals long and incurved. Strong stems and
dark green foliage. Late.

Clemenceau (Dessert 1920), broad guard petals, collar nar-
8.5 rarer, center petals broad with extreme center very
short and narrow. Silvery rose-pink flowers of globular
form and large size. Late.

Elwood Pleas (Pleas 1900), very large, flat flowers of a very
8.7 delicate pink or white tinted pink. A strong grower.
Midseason.

Etta (Terry 1904), immense semi-flat flowers of a very fine
8.0 shade of shell-pink. Rather weak stems. We consider
this one of Terry's best. Very late.

Evangeline (Lemoine 1910), very well-formed compact
8.2 flowers of pale pink. A fresh and charming flower.
Very late.

Georgiana Shaylor (Shaylor 1908), exceptionally large, flat
8.9 flowers of pale rose-pink with a occasional crimson
fleck. Dwarf but sturdy habit. Midseason to late. One
of the best of Mr. Shaylor's seedlings.

Germaine Bigot (Dessert 1902), cameo pink with lighter
8.5 flesh-colored tints in center, very broad petals and alto-
gether a fine flower. Stems of medium height and up-
right. Midseason.

Ginette (Dessert 1915), large, symmetrical flowers of deep flesh, with salmon tints at base of petals. Golden stamens are visible in flowers from young plants, but when well established the flowers are extra fine. Fragrant. Midseason.

James Kelway (Kelway 1900), exquisite white with a golden glow at base of petal. Sometimes semi-double. Tall, strong and very fragrant. Early midseason.

Jubilee (Pleas 1908), extremely large flat flowers of ivory-white, petals long and narrow and arranged loosely, giving a feathery effect. Stems long but weak. Midseason.

Karl Rosenfield (Rosenfield 1908), brilliant dark crimson; of good form and substance. Stems stiff. Medium height. One of our best of this color.

La Perle (Crousse 1886). The true variety is a charming flower. Blush-white in center, growing darker toward the edge. Fragrant. Late.

Madame Auguste Dessert (Dessert 1899), very beautiful soft pink, fading to flesh color. In the half-open flower a ring of golden stamens is visible. Midseason. A fine variety.

Madame Emile Lemoine (Lemoine 1899), large full blooms of soft flesh-white. Petals have a rather translucent effect. Tall, strong stems. Midseason.

Marguerite Gerard (Crouse 1892), globular blooms of flesh-pink fading to creamy-white, showing a ring of gold when fully developed. Late.

Marie Jacquin (Verdier), pure white petals intermixed with golden stamens which give the flower a delicate creamy shade. Flowers somewhat variable, often-times semi-double. The outer petals are incurved giving a cupped water-lily effect which is charming. Stems strong. Midseason.

Maud L. Richardson (Hollis 1904), flesh-pink showing some golden-edged stamenoides. Very good as a landscape variety. Fragrant. Stems long. Late.

M. Jules Elie (Crousse 1888), immense globular blooms. guard petals recurved, resembling chrysanthemums. Clear medium pink with a silvery tinge. Midseason.

Mrs. M. P. Clough (Shaylor 1917), large flower of salmon-pink. Midseason.

Octavie Demay (Calot 1867), large, rather flat flowers of pink and white beautifully blended. Fragrant. Dwarf plant but good foliage. Early.

Phoebe Cary (Brand 1907), large flowers of very soft rose-pink, shading deeper toward the center. Stems tall and strong. Late.

Standard Bearer (Hollis 1906), high built globular blooms
8.5 with recurved guard petals. Uniform color pale pink.
Fragrant. Dwarf with strong, stiff stems. Early.

Venus (Kelway 1888), exquisite pointed buds, opening into
8.3 large, compact flowers of delicate shell-pink with a col-
lar of flesh-white. Extra good both as a garden flower
and as a cut flower. One of the best in our collection.
Midseason.

SERIES D

\$1.00 each; \$10.00 per dozen

Two-year clumps \$1.50 each; \$15.00 per dozen.

Three-year clumps \$2.00 each; \$20.00 per dozen.

Many of these are older varieties which have stood the test
of time and proved their worth. For mass effects or in the bord-
er they will be found most satisfactory and charming pictures
may be obtained by their generous use.

Adolphe Rousseau (Dessert & Mechlin 1890), very tall,
8.5 strong grower, bearing rather loose, sometimes semi-
double flowers of deep garnet. Very fine for the garden,
where its height and color make it conspicuous. Early
midseason.

Alsace Lorraine (Lemoine 1906), pointed white petals suf-
8.8 fused with a golden light from the stamens make this a
charming variety, giving one the thought of a water-
lily. Tall and vigorous. Late.

Asa Gray (Crousse 1886), a variety which was introduced a
8.1 good many years ago, but always in good demand.
Unique flowers of milk-white, thickly sprinkled with
minute carmine dots, so that the total effect is delicate
pink. Midseason.

Avalanche (Crouse 1886), fine flowers of convex form, ivory-
8.7 white, oftentimes with a touch of crimson on the central
petals. Very good as a cut flower. Late midseason.

Bayadere (Lemoine 1910), large globular flowers of creamy-
8.5 white with a golden heart. Symmetrical and very
pleasing in form. Midseason.

Beauty's Mask (Hollis 1904), large flower of faint blush-pink
7.9 with narrow petaloids of deep cream, edged yellow.
These are incurved with the petals and give the flower
a distinctive appearance.

Boule de Neige (Calot 1867), this variety blooms about mid-
8.0 season and produces very large white flowers, usually
with rather uniform red markings. It resembles M.
Dupont but is usually larger.

Couronne d'Or (Calot 1873), large full flowers of pure white
8.1 with a circle of golden stamens. A very beautiful variety
and valuable as a cut flower. Late.

Docteur H. Barnsby (Dessert 1913), large very full blooms
8.1 of crimson with darker shades. Blooms in clusters, good variety for garden effects. Late.

Edith Littleton (Kelway), quite an early and free-blooming variety of large globular form. Coloring a beautiful deep shell-pink with light satiny tips.

E. G. Hill (Lemoine 1906), large symmetrical flowers, petals
7.8 very closely and evenly placed. Rose-pink with lighter tints and occasionally a few golden stamens. Stiff stems of medium height. Our stock is strong and vigorous. Midseason.

Enchantment (Hollis 1907), large globular blooms of deep
8.0 shell-pink. Strong upright stems of medium height. Late. A very good landscape variety.

Eugenie Verdier (Calot 1864), tall free-blooming variety,
8.6 good size and form. Delicate flesh center. lighter outer petals of beautiful satiny sheen. Midseason.

Exquisite (Kelway 1912), good-sized flat flowers of warm
8.5 pink, petals rather pointed. Not strong in young plants, but well established plants produce fine flowers. Fragrant. Midseason to late.

Faribault (Brand 1918), deep rose of a peculiar shade with
7.8 a silver sheen.

Felix Crousse (Crousse 1881), a compact globular bloom of
8.4 large size and fine form. Deep ruby-red, center shading deeper. Very choice. Midseason to late.

Gigantea (Lamartine, Calot 1860), extremely large flowers
8.2 delicate rose-pink. Midseason. A very popular variety for both garden effects and cut flowers.

Henry Avery (Brand 1907), flushed white guard petals and
8.8 center, and wide collar of yellow petals. "Accidental" markings of yellow and green in the center. Fine for garden effect. Very fragrant.

Jules Calot (Calot 1861), large double flowers of a beautiful
7.2 shade of deep rose-pink. Blooms very freely and is choice as a cut flower. Late.

La Rosiere (Crousse 1888), a dainty variety with semi-double white blooms having yellow tints like a tea rose. Foliage dark green and "crinkled." Nor large but very charming. Midseason.

Livingstone (Crousse 1879), compact flowers of light silvery-pink, oftentimes flecked with carmine. Strong stems produce a profusion of bloom. Late.

Mme. Calot (Meillez 1856), large, flesh-pink blossoms with
8.1 some buff shades. Strong stems. Early.

Madame D. Treyerean (Dessert 1899), delicately tinted
8.2 white petals, dotted and splashed with lilac. A free bloomer and very fragrant. Early.

Mme. Emile Galle (Crousse 1881), an exquisite shade of
8.5 shell-pink. Flowers large and borne on long stems. We can thoroughly recommend this when a very late variety is desired.

Mlle. Jeanne Riviere (Riviere 1908), guard petals deep flesh, gradually changing lighter, center petals narrower and of a deep cream shade. Tall, strong stems and abundant flowers. This variety is especially good for garden or mass effects. Midseason.

Mlle. Leonie Calot (Calot 1861), a beautiful shade of salmon-pink fading to a soft flesh-white. Blooms freely in clusters on long stems. Late.

Marie Lemoine (Calot 1869), very large flower of creamy-white with a golden light reflected from hidden stamens. Fragrant. Stems dwarf but strong. Late. An exceptionally beautiful flower.

Marcelle Dessert (Dessert 1899), creamy-white splashed with minute lilac dots, giving the effect of a delicately tinted flower. Some "accidental" carmine markings. Fragrant. Midseason.

Marquis C. Lagergren (Dessert 1911), brilliant cherry-red with darker shadings. Flowers borne in clusters on stiff, upright stems, which make it an excellent variety for mass planting. Midseason.

Masterpiece (Kelway 1895), a deep, glowing crimson often-times showing some golden stamens. Stems erect and a very fine variety for garden effects. Late.

Midnight (Brand 1907), large, very dark maroon, good for cut flowers. Early midseason.

Monsieur Dupont (Calot 1872), large, symmetrical flowers of ivory-white with crimson markings in center. Strong, vigorous growth and a fine variety. Late.

Pierre Duchartre (Crousse 1895), evenly colored, deep shell-pink flower with very broad, rounded petals. Stems strong and upright, although only of medium height. Very late.

Rachel (Lemoine 1904), large, globular flowers of excellent form; fresh, soft rose. Strong stems. Midseason to late.

Reine Hortense (Calot 1857), large compact flowers with broad rounded petals of soft flesh color, center showing some crimson splashes. Very charming variety. Midseason.

Rosette (Dessert 1918), delicate shell-pink illuminated with salmon tints at base of petals. Golden stamens are sometimes visible. Occasional accidental marking on guard petals. Early midseason.

Stanley (Crousse 1879), large globular flowers of light pink with lilac lights. Total effect is very pretty. Midseason.

W. F. Christman (Franklin 1921), very large, full flowers of delicate pink fading to white with pink tints at base of petals. The stems are strong and carry the flowers with ease. Midseason.

Wilton Lockwood (Shaylor 1915), tall strong grower, producing large, flat flowers of deep pink with pronounced crimson markings on some petals. Midseason.

SERIES E

75 cents each; \$7.50 per dozen

Two-year clumps \$1.13 each; \$11.25 per dozen.

Three-year clumps \$1.50; \$15.00 per dozen.

If you wish to plant Peonies as a border or background for other perennials, you will find a good selection in this series. The flowers are not as large as many of the newer ones, but where landscape effects are desired, plants from this series offer a material saving in costs. We have entirely discarded many varieties which did not give a large number of blooms.

Aurore (Dessert 1904), a free-flowering variety, petals rather loosely arranged, mixed with yellow stamens which give a charming effect of creamy-white with golden lights. Midseason.

Aviateur Reymond (Dessert 1915), an attractive shade of cherry-red with deeper garnet shades at base of petals. Midseason.

Bertrade (Lemoine 1909), large compact blooms of ivory-white; stiff stems and vigorous habit when established. Late.

Docteur Caillot (Verdier 1856), good-sized flowers of crimson. Blooms very freely, oftentimes in clusters, and is very good for garden effects. Midseason.

Duchesse de Nemours (Calot 1856), cup-shaped blooms, broad guard petals of white and narrower central petals of sulphur-yellow, with oftentimes a marking of green. Early midseason.

Festiva Maxima (Millez 1851), probably the most widely known of any peony. Exceptionally large ivory-white flowers of rather feathery appearance, with a fleck of crimson in the center. Strong grower and free bloomer. Midseason.

La Fayette (Dessert 1904), large, evenly formed blooms of rich pink with a silvery reflex. Fragrant and a fine variety. Midseason.

La Tendresse (Crousse 1896), delightful milk-white flowers with an occasional splashing of carmine; good size and borne freely in clusters. Midseason.

Mme. Barillet Deschamps (Calot 1868), a variety well adapted for landscape work. Blossoms large, well-formed and a beautiful soft rose with silvery reflex. Foliage quite broad. Midseason.

Mme. de Verneville (Crousse 1885), a beautiful milk-white peony with center flesh-pink when first opened. Center petals sometimes tipped with carmine. Early to mid-season.

Mme. Ducel (Mechin 1880), extra large globular blooms
7.9 beautiful rose-pink with silvery reflex, resembling a
mammoth chrysanthemum. Very fine. Midseason.

Mme. Guyot (Paillet), large, high-built flowers of deep cream
7.7 with some markings of green. A strong grower and free
bloomer. Very desirable. Early.

Madame Manchet (Dessert 1913), a very full cup-shaped
8.5 flower of rose-pink with a silvery light. Tall, stiff stems.
Very late.

Marguerite Gaudichau (Millet 1903), very delicate shell-
8.1 pink petals, rather incurved, interspersed with an ir-
regular ring of yellow stamenoids. Fragrant. Very
charming variety. Late.

Pasteur (Crousse 1896), large flowers of very delicate shell-
8.4 pink with soft yellow lights at base of petals. Midseason.

Souvenir du Dr. Bretonneau (Dessert 1880), deep rosy-red,
7.2 rather loosely arranged petals. Midseason.

SERIES F

50 cents each; \$5.00 per dozen.

Two-year plants 75 cents each; \$7.50 per dozen.

Three-year plants \$1.00 each; \$10.00 per dozen.

Many of the older varieties of Peonies have been discarded
and sometimes we overlook good qualities which have made
these varieties so well liked in the past. The varieties listed in
this series will not produce individual blooms for the show
table, but they do make a pretty effect in the garden.

Edouard Andre (Mechin 1874), medium-sized blossoms of a
7.1 satiny crimson-maroon with rich golden center. Mid-
season.

Edulis Superba (Lemon 1824), deep rose-pink with an occa-
7.6 sional crimson marking. Guard petals wider than those
in the center. Very early.

Eucharis (Lemoine 1909), fragrant, creamy-white, of large
7.6 size and globular shape. Late.

Gloire de Charles Gombault (Gombault 1866), tall, strong
7.9 stems bearing large flowers of mauve-pink with a deep
collar of creamy-white and a pink tuft in the center.
Very distinct. Midseason.

Marechal Vaillant (Calot 1867), immense full blooms of
7.5 crimson of good substance. Stems long, but should be
supported to keep up heavy blossoms. Very late.

Pierre Reignoux (Dessert 1908), large flowers bright rose-
7.4 pink petals rather loosely arranged. A free bloomer in
clusters. Good for garden effects. Early.

Princess Irene (Kelway 1889), tall, strong grower and of free-
7.2 flowering quality. Guard petals flesh-pink and center
sulphur-yellow. One of the best "yellow" peonies. Mid-
season.

Winnifred Domme (Brand 1913), medium-sized flowers of
8.3 bomb type, bright red. Medium height and strong
stems. Early midseason.

SINGLE PEONIES

Price per dozen at ten times the single rate, e.g.
\$1.00 each. \$10.00 per dozen;

Prices quoted are for large divisions (L.D.) consisting
of strong three to five-eye divisions, and one-year
(1 yr.) plants, which are divisions grown for one year or
divisions equal to those.

For two-year clumps add 50 per cent. to one-year
price.

Three-year clumps at double the price of one-year
plants.

The single flowers, or those having a single row of petals
with a center of yellow stamens, are the first to bloom, but
will last for some time, for as the terminal flower fades the side
or lateral buds open. For garden effects they are most satis-
factory. They are more individual and withstand the rains
and winds where the heavier doubles might be beaten down.
In the early morning and at dusk the flowers are closed, re-
sembling large rosebuds, and are especially alluring. If cut
when in bud and brought into the house they keep a week or
more. We have tested many varieties for years, and list below
those that we have found to be best.

Adana (Kelway) Very fine single flowers with broad petals of
good substance, delicate shell-pink with bright golden
stamens. Long buds resembling roses. L.D. \$2. 1 yr. \$3.

Black Prince (See Series A).

Celeste Brochet (Brochet), milk-white petals thickly
sprinkled with minute dots of lilac, giving a total effect
of pale lavender or faint pink. Stock limited. \$1.50 each.

Clairette (Dessert 1905), tall, strong stems with dark green
8.1 foliage, bearing very large pure white flowers. The
petals are long and silky and the center mass of stamens
is bright yellow. \$1.50 each.

Dorothy (Kelway 1898), a single row of broad pink petals and
7.5 bright golden center make this an attractive variety for
the border. 75 cents each.

Duchess of Portland (Barr), white, faintly tinted pink,
7.8 gradually deepening toward the center of each petal.
Strong, tall grower. \$1.00 each.

Emily (Kelway), rose-pink, not tall but free-flowering and
7.4 shows up well in the border. 75 cents each.

Helen (See Series A)

Hesperus (Kelway), broad petals of deep shell-pink of good
substance, forming a cup-shaped flower. \$1. each.

Lady Lilian Ogle (Kelway), faintly tinted buds, opening into
pure white flowers. Strong, vigorous plants of a rather
bushy habit. \$1.00 each.

Lady Margaret Ferguson, broad petals deep yet delicate pink. Medium height, good foliage. \$1.00.

Le Jour (Shaylor 1915), large, pure white single flowers, petals of good substance, so that the flowers do not wilt down. Stamens yellow showing red stigmas. Very fine. Early. L.D. \$2. 1 yr. \$3.

L'Etincelante (Dessert 1905), large flowers and broad petals of bright pink with silvery borders. Total effect is a soft but bright pink which is especially attractive in the garden. \$1.50 each.

Mrs. F. J. Clark, a strong grower, petals broad and pure white, except a faint tinting of pink at base. \$1.00.

Mrs. Key (Terry), a deep shade of glowing crimson. Very effective and one of the best of its color. \$1.00.

Perle Blanche (Dessert 1913), broad, rounded petals of pure white and a glowing mass of golden stamens. Stems tall and erect. L.D. \$2. 1 yr. \$3.

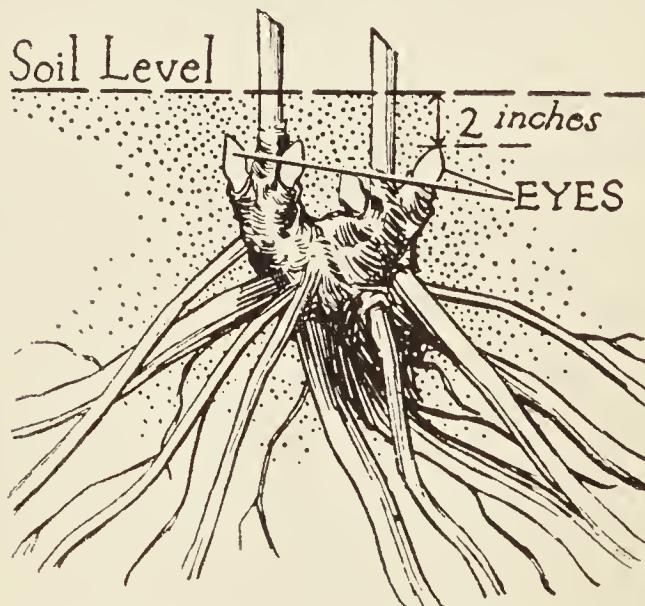

Single White. From among our many thousands of seedlings we selected a number of the best. Glistening white flowers with golden stamens. 75 cents each.

Stanley (Kelway 1890), brilliant red with large golden center. The foliage of this variety is broad and luxuriant and especially attractive throughout the summer. \$1.00 each.

The Bride (Dessert 1902), large white flowers with a glowing mass of stamens. Tall, stiff stems and luxurious foliage. \$1.00 each.

The Queen (Kelway), a beautiful white, delicately suffused blush-pink. Free-blooming and vigorous. \$1.50.

Victoria, long petals of a brilliant crimson which glow in the sun. Foliage dark green. \$1.00 each.

This shows the proper depth for a Peony root—never more than 2 or 3 inches below the surface.

Venus (Barr) Dark green foliage and shell-pink flowers of cupped form. These have good substance and give a long period of bloom. L.D. \$2. 1 yr. \$3.

Whitleyi Major, quantities of blush-white flowers with gold-
8.5 en hearts are borne on the strong stems. Foliage heavy
and dark green. \$1.50 each.

RARE JAPANESE PEONIES

The so-called Japanese Peonies are those which have one or two rows of petals and centers of stamens much thickened. These latter are almost devoid of pollen and oftentimes make a thick cushion of golden-yellow. The effect is beautiful and distinct, and they continue to bloom throughout the Peony season. Although strong growers, they propagate slowly and the stocks are usually limited.

Alma (Shaylor 1916), pale pink petals enclosing a mass of in-
8.5 curved yellow petaloids. A fine Japanese variety.
L.D. \$1.50. 1 yr. \$2.50.

Ama-no-sode, exceptionally large flowers, petals bright rose-
9.2 pink with lighter tints and a mass of stamens. L.D. \$5.
1 yr. \$7.

Aureolin (Shaylor 1917), a Japanese type of medium size
8.9 with pink guard petals and deep sulphur center. Mid-
season to late. L.D. \$2. 1 yr. \$3.

Edward VII (Kelway), we have found this to be a good red of
strong growth and a profusion of bloom. Petals of deep
crimson and a good compact center of yellow stamens.
Midseason. \$1.50 each.

Emma, large broad-petaled flowers of attractive bright pink
borne on strong upright stems. An extra fine variety.
Stock limited. L.D. \$3. 1 yr. \$4.

Flashlight (Hollis 1906), crimson petals with narrow center
8.2 petals deep yellow with crimson shades. A most distinct
and attractive flower. \$1.50 each.

Fuyajo, dark garnet petals, center petals narrow and striped
9.2 garnet and white. L.D. \$2. 1 yr. \$3.

Gold Mine (Hollis 1907), deep, vinous-red petals and golden
8.2 stamen. L.D. \$1.50. 1 yr. \$2.

Isani Gidui, tall strong stems, rounded petals of pure white
9.3 with a thick cushion of golden stamens. We consider
this one of the best whites which we have ever seen,
and our stock is limited. L.D. \$6. 1 yr. \$8.

Jap No. 5. We received this variety without a name from a
private collection and have not identified it. Petals
bright crimson with bright yellow stamens. Strong
grower and free bloomer. \$1.00 each.

Jap No. 6. Another variety which we received from Japan
without a name. Bears quantities of soft pink flowers
with compact golden centers. Much admired by all who
have seen it in bloom. \$1.50 each.

King of England (Kelway 1902), a rich shade of carmine,
8.6 long stamens self-color edged golden. Tall, strong
grower and free bloomer. A brilliant variety. We be-
lieve our stock to be the true strain. L.D. \$2. 1 yr. \$3.

Margaret Atwood, large flower of pure white, petals broad and rounded and of good substance so that they form a cup-shaped bloom. The large cushions of golden stamens make a charming contrast in this gold and white flower. L.D. \$8. 1 yr. \$10.

Mikado, rich, dark red petals and a broad center of stamens of deep yellow edged dark red. Midseason. L.D. \$1.50. 1 yr. \$2.

Purity (Kelway) Large flowers with broad petals of pure white. The center is a compact mass of incurved yellow stamens. These flowers are charming both as cut flowers and in the garden. L.D. \$3. 1 yr. \$4.

Purple Cup (Kelway), deep cherry-red petals, which make an effective contrast with the golden stamens. \$1.

Ruth Force (Shaylor 1922), a Japanese type of bright cerise-pink petals with stamens edged with petal color. Holds its color well until the petals fall. Midseason to late. L.D. \$2. 1 yr. \$3.

Soshi (Millet), rounded petals of deep crimson of good substance. The stems are strong and bear the flowers so that they make an excellent accent in the garden. L.D. \$3. 1 yr. \$4.

The Dragon (Wallace), broad petals of crimson contrast strongly with the large yellow center. Long, strong stems. L.D. \$2. 1 yr. \$3.

Tokio, tall strong stems with an abundance of dark green foliage. Large flowers of rose-pink petals and a thick mass of incurved stamens. One of the best Japanese pinks which we have ever seen. L.D. \$3. 1 yr. \$4.

Toro-no-maki, large blush-white petals fading to white as flower opens, center of creamy stamenoïdes edged and tipped yellow. Medium height and good growth. Mid-season. L.D. \$5. 1 yr. \$6.

Yeso, guard or outside petals pure white, narrow center petals white, shaded slightly yellow, with oftentimes a carmine tip. L.D. \$1.50. 1 yr. \$2.

No. 77-A. One of our seedlings which we have not named. Deep pink guard petals, center petaloids deep salmon-pink, sometimes mixed with longer ones of rosy-pink (as if dipped). Very early and attractive because of its oddity. Strong growth. \$1.00.

VARIOUS PEONIES

We have grouped below several varieties. The first three are crosses between Chinese Peonies and Wittmanniana, and the last five are European types and varieties. They are all early flowering and extend the season of Peonies by two weeks.

Avant Garde, exquisite single flower of pale smoky pink with golden tints and golden stamens. L.D. \$2. 1 yr. \$2.50.

Le Printemps, a creamy-yellow shade, difficult to describe, with faint reddish veinings at base of petals. Yellow stamens. L.D. \$2. 1 yr. \$2.50.

Maifleuri, delicate flesh-white, with a rich creamy-yellow over-color. Very fine. L.D. \$2. 1 yr. \$2.50.

The above three are very similar, but distinctive from the other varieties for their delicacy of coloring.

Officinalis alba plena, beautiful ivory-white flowers, fully double, possessing good substance, so that they will last for some time as cut flowers. \$1.50 each.

Officinalis rubra plena, double bomb-shaped flowers of 8.6 bright blood-red with almost no traces of purple. The old-fashioned red "piney." 75 cents each.

Anomala, single flowers of bright red with center of golden stamens. Foliage finely cut. Often called the "fern-leaved peony." Very early. Height 6 to 9 inches. \$1.00 each.

Tenuifolia flore pleno. A long name for a small plant. Double blood-red flowers appear to nestle in the grass-like foliage. Dwarf. Very early. Excellent for rock gardens. \$2.00 each.

Unnamed Peonies. During the dividing season sometimes a label is lost and the divisions are planted to sell to color. We can furnish these in two grades—\$2.50 and \$5.00 per dozen. They are all good varieties and would be worth much more if sold to name.

For those who wish Japanese type Peonies we can furnish two grades in a mixture of colors. \$5.00 per dozen and \$7.50 per dozen.

PEONY COLLECTIONS OF UNUSUAL VALUE

The peonies named in these collections are not "slow sellers" but have been chosen from the entire list, representing some of the greatest values we have ever offered at these prices. If you are in doubt as to the selection, you will make no mistake in ordering one or more of these collections.

COLLECTION NO. 1

Felix Crousse, 8.4. Compact globular bloom of deep red.

Festiva Maxima, 9.3. Ivory-white flecked with red.

Pride of Essex, 8.9. Deep shell-pink of large size.

Venus, 8.3. Blush-pink and white.

Regular price \$4.75—Collection price \$3.50.

COLLECTION NO. 2

Adolphe Rousseau, 8.5. Deep garnet red, early.

Baroness Schroeder, 9.0. Faint pink opening into pure white flowers.

Reine Hortense, 8.7. Soft flesh color. Blooms freely.

Sarah Bernhardt, 9.0. Shell-pink of great beauty.

Regular price \$5.50—Collection price \$4.00.

COLLECTION NO. 3

Albert Crousse, 8.5. Soft shell-pink with salmon tints.

Avalanche, 8.7. Well-formed flowers of white.

Cherry Hill, 8.6. Deep garnet. Very early.

M. Jules Elie, 9.2. Clear medium pink of immense size.

Regular price \$5.50—Collection price \$4.00.

COLLECTION NO. 4

Georgiana Shaylor, 8.9. Light rose-pink. Dwarf but sturdy habit.

Karl Rosenfield, 8.8. Brilliant dark crimson. One of our best reds.

Kelway's Glorious, 9.8. White, fragrant. One of the three highest rated Peonies.

Lady Alexandra Duff, 9.1. Broad petals of soft blush-pink.
Regular price \$8.50—Collection price \$7.00.

COLLECTION NO. 5

Betty Blossom, 8.9. Creamy-white petals with deeper yellow tints.

Cherry Hill, 8.6. Deep garnet flowers on tall stems. Very early.

Nymphaea, 8.8. Large flat flowers of creamy-white.

Pride of Essex, 8.9. Globular flowers of shell-pink.
Regular price \$8.00—Collection price \$6.50.

COLLECTION NO. 6

Le Cygne, 9.9. Pure white. The highest rated peony.

Longfellow, 9.0. Brilliant crimson of large size.

Solange, 9.7. White suffused with a reddish-golden light.

Therese, 9.8. Shell-pink, vigorous and free-blooming.
Regular price \$9.00—Collection price \$7.00.

New—TREE PEONY

Argosy (Saunders 1928). Large single flowers of sulphur-yellow. A hybrid of *P. lutea* and *moutan*. Strong, bushy growth and blooms freely. Through an arrangement with Prof. Saunders we can offer a limited number of strong plants at \$15.00 each.

A Field of Peonies at Cherry Hill.

Phlox

The perennial garden phlox that we are offering to our customers in 1936 has been augmented by a few choice varieties so that our collection this year is even better than before. Some of the older varieties we have only in small lots and, therefore, are discontinuing them and supplanting them with others, which in our opinion, are far better.

If you do not see any varieties listed that you would like, please write us for many times we have just a few but not enough to warrant placing them in our catalog.

The number of Phlox in our gardens is very large and where they have been mixed through any oversight on our part, we are simply selling them to color at about one-half price. This will mean that you will get a great many of the higher priced ones sometimes at very reasonable cost, indeed. (Our price is \$1.00 and \$1.25 per dozen when sold to color only.)

Do not allow the seed to ripen but clip off the old blooms as soon as they wither. This induces a second flowering and also keeps seedlings from choking out the parent plant. These seedlings will, for the most part, show magenta shades and will spoil the color effect. If phlox are taken care of in this manner they will continue to grow and bloom for many years.

The best fungicide which we have found is dry sulphur dusted on the leaves. This will prevent red spider and mildew which sometimes make the leaves rusty. A small hand-duster and specially prepared fine sulphur will be found very effective. This treatment will also help delphiniums and other perennials suffering from fungi.

SERIES A

20 cents each; \$2.00 per dozen; \$15.00 per 100.

Six plants of one variety will be furnished at the dozen rate, twenty-five or more at the hundred rate. Double sized plants for immediate effect at double price.

The following will be found to be very satisfactory as they are all clear distinct colors and strong growers.

Hanny Pfeiderer, a beautiful velvety white overlaid with light rose-pink, with carmine eye, flowers large, medium height. Midseason.

Miss Lingard, one of the earliest flowering tall varieties. Medium sized white flower and dark green foliage. A continual bloomer.

Stella's Choice, a tall vigorous grower. Trusses very large and snow-white. Extra nice. Late.

Most people consult their physician when unwell. Home-lovers should consult a nurseryman or Landscape architect for advice.

SERIES B

25 cents each; \$2.50 per dozen; \$18.00 per hundred.

Six plants of one variety will be furnished at the dozen rate and twenty-five or more of one variety at the rate per hundred. Double sized clumps for immediate effect at double price.

Boule de Feu, Deep salmon-red. Very choice. Late.

Crepuscule, very large flowers of soft lilac deepening to a deep crimson center, total effect is very fine. Medium height. Midseason,

Europa, a pleasing variety of medium height with ivory-white blooms and carmine eye. Trusses large and well-formed. Midseason.

F. G. Von Lassburg, plants of medium height, bearing pure white trusses of good size and substance. Individual panicles extra large. Midseason.

Frau Anton Buchner, a rich creamy-white blossom of extra size panicle and truss. Medium to tall. Mid season.

Gen. Van Heutz, large panicles of salmon-red. Eye a grayish-white. Medium sized trusses. Tall, midseason to late.

Jules Sandeau, even color of rich rose-pink. Large panicles of flowers on dwarf stems.

Le Mahdi, the best dark blue phlox grown. Flowers large, plants tall. Late.

Peach Blow. As its name implies, this variety is practically a peach-blossom pink with a somewhat lighter eye. Plant rather dwarf. Midseason.

Reichsgraf Von Hochberg. Brilliant red. Hard to beat. Vigorous grower. One of the best easy-growing reds.

R.P. Struthers, medium to tall variety. Color, bright pinkish-salmon with dark crimson eye. Midseason.

Ruth May, light, flesh pink with a darker eye. Large, broad heads of flowers giving a considerable season of bloom. Medium height. Late.

Thor, one of the later and best introductions. Medium height. Deep rich salmon-pink with deep crimson eye. Very fine. Midseason to late.

Gold Medal of The American Peony Society.

SERIES C.

35 cents each; \$3.00 per dozen; \$22.00 per hundred.

Six plants of one variety will be furnished at the dozen rate and twenty-five or more of one variety at the rate per hundred. Double sized clumps for immediate effect at double price.

Africa, a very deep red-purple, compact symmetrical trusses.

Medium height. Midseason. One of the best of this shade.

B. Comte, a deep shade of red-plum, velvety texture, and the finest in this class which we have seen. Medium height. Midseason.

Berenice, dwarf to medium height. Ivory-white of good size and vigor. We consider this an extra choice variety. Midseason.

Caroline van den Berg, tall, large full trusses of deep bluish-purple produced in abundance. Midseason.

Columbia, Plant patent No. 118. A sensational recent introduction considered by eminent authorities as the best introduction in Phlox in a number of years. Similar to Elizabeth Campbell but of a light shade and with a light faint bluish eye giving a charming effect. Should be planted in every garden. 50 cents each. 3 for \$1.25. \$4.00 for 12.

Daily Sketch, medium height. A new variety of merit bearing large, full heads with very large flowers of light salmon-pink with vivid carmine eye. Midseason. 50 cents each. \$5.00 per dozen.

Debs, a brilliant crimson, of a shade seldom seen in phlox. Very fine for a mass effect or for an accent in the garden. Medium.

E. I. Farrington. Good, soft salmon-pink with lighter eye. Considered by some to be as good as Elizabeth Campbell.

Elizabeth Campbell, clear, salmon-pink with a lighter center. Medium height. This is deservedly the most popular pink phlox as it will combine with any color and the large flowers make a brilliant mass effect.

Enchantress, medium height. Soft salmon-pink resembling Elizabeth Campbell but with a darker center. Midseason.

Etna, tall deep coral-red, large flower heads and individual florets. Midseason. Extra. This is the true variety.

Evelyn, tall, rich salmon-rose. The individual panicles are of immense size. New. Midseason.

G. A. Strohlein (true). Dazzling scarlet-red with deeper eye. Medium height. We consider this one of the best of the scarlets. Midseason.

Gustaf Lind, dwarf, a new variety, salmon-red in color and free-flowering habit. The first dwarf red we have seen. 50 cents each. \$5.00 per dozen.

Letting your phlox seed in will produce plants untrue to name.

H. B. May, dwarf to medium height. Exceptionally large flowers and heads of clear pink with deeper eye. Midseason.

Karl Foerster, medium height, glowing, dark orange-red of large size. Good-sized, full heads. 50 cents each. \$5 per doz.

Leo Schlageter. A very strong, healthy-growing novelty with large pyramidal trusses of brilliant scarlet-carmine flowers having a darker center.

Lilian. One of the loveliest pinks known to the Horticultural world. (Originator's description)

Mme. Paul Dutrie, a strong bloomer of exquisitely shaded apple-blossom pink, lighter towards the center. Medium. Midseason.

Maid Marian, one of the best of our own seedlings and very popular. An ideal soft lavender, very even in color. Flowers are extra large. Midseason. Resembles Antonin Mercie but is taller and larger with more even coloring.

Mary Louise (A.P. Saunders). New. Creamy-white buds, opening into waxy-white flower heads of large size and good form. Tall, midseason to late. This has attracted much attention because of its fine habit. 75 cents each. \$7.50 per doz.

Morganrood. Novelty. A very distinct variety. Large clusters of a bright rose shade with deeper eye. Strong grower. Large individual flowers. 2½ to 3 ft.

Mountain Laurel (Fewkes) New. Tall, deep yet delicate shell-pink flowers borne freely on strong stems, reminding one of the pink Mountain Laurel.

Mrs. Ethel Pritchard. Clear rose-mauve. Extra nice.

Mrs. Milly Van Hoboken. Medium in height and bearing long, heavy trusses of soft self-pink flowers of immense size. A striking novelty. Midseason to late.

Mrs. Scholten, medium height, deep blood-red or crimson. A fine variety for massing. Midseason.

Nordlight. Extremely large, flat florets; warm lilac-blush with violet-red eye. A new variety from Europe.

Ruby (Fewkes). Medium height, clear ruby-red of a shade not often found in Phlox, but which blends nicely with other flowers. Large individual flowers and well-formed heads.

Saladin. A choice new scarlet with brilliant orange overcast; maroon eye.

Salmon Glow (New), rich salmon-pink softened with lilac and white tints at the center. Free-flowering and of vigorous growth. 50 cents. \$5 per doz.

Tapis Blanc, a dwarf white of value. Trusses and panicles large. A fine variety for edging. Midseason.

Wanadis, deep lilac with deeper eye. Medium height.

Widar, a deep violet-blue with pure white eye. Medium. Midseason. For Dwarf Phlox see general list of perennials.

Iris

These beautiful flowers, sometimes called the Rainbow Flowers, on account of their various tints and hues, repay one remarkably well for any attention given them. They multiply quite rapidly and present a gorgeous sight, indeed.

We have endeavored to add new ones to our collection from time to time and can recommend without any hesitation whatever the following varieties. Many of them have sold for as high as \$30.00 to \$50.00 on their first introduction and these you will find among the newer varieties that we are listing this year.

The bearded Iris should be planted in well-drained sunny soil preferring to be rather too dry than otherwise. Do not use stable manure. Lime is usually beneficial, or bone meal. In planting, barely cover the rhizomes with earth and give them some protection the first winter to keep them from being thrown out by the frost.

We have discontinued a number of the older varieties and are selling them to color at the very low price of \$1.25 per twelve.

In the following descriptions, S. signifies the standards or upright petals, and F. the falls or drooping petals. The rating marks are: first, exhibition; second, garden value.

Six of one variety at the dozen rate and twenty-five or more of one variety at the rate per hundred. Double sized clumps at double price.

Afterglow, H. 36 in. S. and F. soft lavender-gray lighted with 83-82 rich yellow. Excellent. 30 cents. 3 for .60. 12 for \$2.00.

Alcazar, H. 36 in. S. bluish-lavender; F. rich velvety purple. 86-87 Very fine. 25 cents. 3 for .60 12 for \$2.

Ambassadeur, H. 36 to 42 in. S. clouded reddish-violet; F. 92-91 velvety violet. Very large flowers. One of the best. 40 cents. 3 for \$1. 12 for \$3.

Balder, H. 24 in. S. olive-yellow; F. reddish-purple with nar- 83-82 row border of olive-yellow. 60 cents. 3 for \$1.25, 12 for \$4.

Ballerine, H. 36 in. S. light violet-blue with shaded falls. 90-89 Fragrant. 40 cents. 3 for \$1. 12 for \$3.

Blue Velvet, (Loomis '29) Rich velvety blue. A much sought-after blue and quite scarce. \$1.50 each

Bruno (Bliss '29) Very attractive variety. F deep brown edged with buff, S. rosy-fawn. 30 cents each.

B. Y. Morrison (Sturt) H. 33 in. S. pale lavender-violet; F. 84-80 raisin-purple. 35 cents. 3 for .90 12 for \$2.50.

Columbine (Murrell '30) A very attractive white and considered one of the best in its class, if not the very best. Strong grower and should be in every garden.

\$1.00 each

Coronation (Moore '27) A new introduction. Beautiful deep yellow. Very hardy. \$.40.

Corrida H. 30 in. S. and F. deep lavender-blue. Blooms pro-
82-84 fusely. 30 cents 3 for .80 12 for \$2.50.

Cristata, Crested Iris, H. 3 in. Amethyst-blue flowers in
April. Fine for rock gardens. 20 cents. 3 for .50.
12 for \$1.75.

Crusader, H. 36 in. S. and F. broad and clear blue-violet.
85-85 Very fine. 35 cents. 3 for \$1. 12 for \$3.

Cypriana Superba, H. 18 in. S. and F. fine royal-purple;
83-81 large flower. Superior to Kharput. 20 cents. 3 for
.50. 12 for \$1.75.

Dauntless (Connell '29) One of the so-called popular reds.
F. a reddish pink, S. same shade edged lighter. Should
be in every garden. \$1.00.

Desert Gold (Kirkland '30) S. light attractive yellow, F. a
deeper shade, much desired. \$1.00.

Dolly Madison (Williamson '27) A delightful blending of
white, red and yellow. Much sought after. 35 cents
each.

Dream (Sturtevant) H. 30 in. S. and F. a delightful, soft even
84-84 pink. Probably one of the best pinks so far introduced.
40 cents. 3 for .90. 12 for \$2.75.

EI Capitan (Mohr '29) Extremely large. Light manganese
colored flower unusually attractive. 50 cents each.

Empress of India, H. 36 in. S. clear bluish-lavender; F.
81-80 slightly darker. Very attractive. 40 cents. 3 for \$1.
12 for \$3.50.

Erebian (Loomis '31) A large flowering variety, self colored
rich velvety dark violet red. \$1.50.

Forresti (Yunnan Iris) H., 12 to 18 in. Pale yellow flowers
and narrow grass-like foliage. Naturalizes very well.
60 cents. 3 for \$1.60. 12 for \$6.

Frieda Mohr. A large beautiful bi-color. Pale lilac stan-
dards, deep lilac-rose falls. One of the very best in
commerce. 50 cents. 3 for \$1.25.

Grace Sturtevant (Bliss '26) S. light chocolate brown, F.
much deeper. Beautiful indeed. 75 cents each.

Indian Chief (Ayres '29) A rich deep velvety red with stan-
dards somewhat lighter. Very choice, indeed. 50 cents
each.

Kochi, H. 24 in. Self color of deep rich purple. 20 cents.
3 for .50. 12 for \$1.75.

Labor (Cayeux '26) An extra large deep garnet flower over-
laid with copper and bluish sheen. 30 cents.

Legend (Ware '32) S. deep blue slightly bronzed, F. deep rich
claret. Blooms extra large. Very choice. \$1.50 each.

Lent A. Williamson, H. 30 to 36 in. S deep blue; F. rich
88-88 royal purple. Extra fine. 30 cents. 3 for .75. 12 for \$2.

Lord of June, H. 42 in. S. blue-lavender; F. deep blue-violet.
88-87 Flowers of immense size. 40 cents. 3 for \$1.10.
12 for \$3.

Magnifica, H. 36 in. S. pale blue; F. red violet. Large flowers.
87-85 Very popular. 40 cents. 3 for \$1. 12 for \$3.

Ma Mie H. 36 in. S. and F. white, edges penciled lavender.
78-80 Dainty. 25 eents. 3 for .60. 12 for \$2.

Marsh Marigold, H. 30 in. S. pale golden-yellow; F. deep
82-81 purple-brown with golden edge. Rieh. 40 eents.
3 for \$1. 12 for \$3.

Melchior (Wallaee '27) A very beautiful self-garnet with
beard of bronze yellow. Flowers very large in size.
45 eents.

Meldoric (Ayres '30) Very scarce variety. Huge blue-black
flowers. \$2.50 each. Much sought after.

Midgard (Sass '26) Yellowish-pink bi-color. Very attractive
and creates a sensation wherever shown. 30 cents.
3 for .75.

Morning Splendor, H. 36 in. S. rieh deep red-violet; F.
91-91 slightly darker. One of the finest iris produced in
America. 60 eents. 3 for \$1.50. 12 for \$5.

Mother of Pearl, H. 42 in. Self color of pale bluish-lavender
84-84 with pearly tints. 30 cents. 3 for .75. 12 for \$2.

Mrs. Valerie West (Bliss '25) Immense in size with falls a
deep maroon brown and standards a shade or two
lighter. 70 eents.

Opera H. 30 in. S. bright red-violet; F. deep velvety red-
82-83 purple. Should be in every collection. 35 eents.
3 for .85. 12 for \$2.50.

Pallida Dalmatica H. 36 in. Strong, broad leaves and wide
83-85 petaled lavender flowers. Fine for massing. 20 eents.
3 for .55. 12 for \$1.75.

Prosper Laugier, H. 30 in. S. bronze-red; F. pansy-purple.
86-84 One of the best of the "bronze" colors. 20 eents.
3 for .50. 12 for \$1.75.

Pumila varieties, H. about 5 in. Light blue, dark blue, white,
yellow, royal purple. Extra good for rock gardens.
20 cents. 3 for .50. 12 for \$1.75.

Queen Caterina, H. 30 in. Pale lavender-violet self color of
88-88 attractive form and habit. Vigorous. 30 cents. 3 for
.75. 12 for \$2.

Rameses (Sass '29) Delightful symphony of rose-pink and
buff. Heavy apricot beard. 75 cents.

Red Wing (Sass '28) A very beautiful variety having a total
effeet of reddish brown. Flower quite large. Keeping
qualities of the best. 40 eents.

Rhein Nixe H. 30 in. S. white; F. velvety-violet, bordered
82-83 white. Conspicuous. 20 cents. 3 for .50. 12 for
\$1.75.

Richard 11, H. 20 in. S. clear white; F. velvety dark purple
76-73 edged white. 50 cents. 3 for \$1. 12 for \$3.

Santa Barbara (Mohr-Mit) Perhaps the most satisfactory
of the so-called lavender. Gorgeous, indeed. 30 cents.

Seminole, H. 36 in. S. reddish-violet; F. velvety crimson.
83-83 35 eents. 3 for .90. 12 for \$2.50.

Shekinah, H. 36 in. Pale yellow with deeper shadings. One
84-84 of the best tall yellows. 30 cents. 3 for .75. 12 for
\$2.50.

Sherwin Wright, H. 24 in. S. and F. rich bright yellow;
flowers of good size. 20 cents. 3 for .50. 12 for
\$1.75.

Siberica Orientalis, H. 42 in., rich deep blue, very attractive
in the opening bud. Blooms about mid-June. 20
cents. 3 for .50. 12 for \$1.75.

Siberica, Snow Queen. H. 42 in. Pure white with soft yellow
throat. 20 cents. 3 for .50. 12 for \$1.75.

Sir Michael (Yeld '25) One of the most beautiful of recent
introductions. S. clear light blue, F. deep rich ma-
hogany with a beard of reddish gold. 60 cents.

Souv. de Mme. Guadichau, H. 36 in. S. and F. a rich
91-88 blackish-purple. Just magnificent. 40 cents. 3 for \$1.
12 for \$3.50.

Susan Bliss (Bliss) Rich rose-pink self with a delicate pur-
plish sheen. Pale orange beard. Of good form and fine
substance. 30 cents.

Swazi (Bliss) A very rich dark velvety blue with attractive
yellow beard. Good size and substance. 50 cents.

Sweet Lavender, H. 36 in. S. pale lavender; F. deep rose-
85-87 lavender. Beautiful. 40 cents. 3 for .90. 12 for
\$2.75.

Tapestry (Ayres) Deep smoky mulberry. \$1.00 each.

Tenebrae (Bliss) One of the richest and darkest of the Domin-
ion race. S. a rich, violet purple, tinged with dark
maroon purple. F. rich velvety black purple. 30
cents each.

HOW TO PLANT AN IRIS

This drawing shows how a German Iris plant should be prepared for planting. We cut back the foliage to about 6 inches before shipping. Spread the roots evenly in all directions and work the soil between and around; then firm with the hands or feet. Continue this process until about two-thirds of the rhizome is covered, leave the remainder exposed to the sun and air.

Vingolf, H. 30 in. S. creamy-white; F. velvety purple edged
83-85 cream. 50 cents. 3 for \$1.00. 12 for \$3.50.

Wedgewood A beautiful rich blue self. Large flowers with
prominent white beard. Very attractive. 30 cents.
3 for .75.

White Knight, H. 24 in. A beautiful pure white. Fragrant.
79-80 25 cents. 3 for .65. 12 for \$2.00.

Wm. Mohr (Mohr) Pale lilac with deep violet veinings.
Very attractive. 50 cents.

JAPANESE IRIS—IRIS KAEMPFERI

Japanese Iris may truly be considered the queen of all Irises and of such size and wondrous coloring that it is a welcome addition to any garden. The colors range from pure white down to the deepest blue, or dark maroon.

These plants should be set out in the spring or early September and as they have an entirely different root, being more a bunch of roots, they should be planted about an inch below the surface rather than on top of the ground, which is the case of German Iris. Our collection of Japanese Iris will be a little smaller this year than heretofore as a number of our best varieties were almost sold out last year and we have only enough to form a nucleus for our future collection, which consists of the best to be found either in this country or abroad.

In addition to these varieties we have some beautiful seedlings which will rate with the best to be found anywhere and another year these will be named.

Varieties listed below, 30 cents each; \$3.00 per dozen.
Six or more plants of a variety at the dozen rate.

Circe, Rich dark violet blue.

Gold Bound, 6 petals, broad petals of pure glistening white,
with golden throat.

Koki-No-Iro, 6 petals, very large flowers of rich violet-purple
with white petaloids tipped violet. Vigorous and free
flowering.

E. 25, 3 petals, gray, bordered red-violet, center gray edged
red-violet.

E. 48, 3 petals, gray, veined reddish-plum, center reddish-
plum.

E. 66, 6 petals, blue slightly tinged with golden throat; center
gray, tipped violet-blue.

E. 77, 3 petals, deep, rich mahogany; even color throughout.
Tall habit of growth.

69 B.X., 6 petals, gray, overlaid and heavily veined blue-
lavender, center gray.

X 2, 3 petals, white. Very good.

Unnamed Varieties, we have a mixture of colors ranging
from pure white to deep purple, very fine for naturalizing.
\$2.00 per dozen. \$12 for 100.

Cherry Hill Royal Perennials

Perennials are playing a more and more important part in the planting of gardens especially with the advent of the modern rock garden. All of the varieties that we are offering we have tested out from a thousand or more different ones that we have been collecting in our garden here and we class them as among the most popular for rock gardens, a border or for a general garden.

Strong Field Grown Plants of the following varieties are priced at 25 cents each or \$2.50 per dozen unless otherwise noted. Double size clumps at double price.

Varieties marked with an asterisk are suitable for rock gardens.

***Achillea ptarmica, Perry's White.** (Yarrow). Pure white flowers with broad, over-lapping petals are produced practically all summer. Fine for cutting. 2 ft.

Aconitum fisheri. Glossy medium green foliage and strong stems bearing cone-shaped heads of intense deep blue. September. 2 feet.

Aconitum napellus bicolor. A very decorative variety bearing blue and white flowers in June and July. 2 feet. 35 cents each. \$3.00 per dozen.

Aconitum sparksii. The darkest blue of all. Extra nice. July.

Agrostemma coronaria. (Mullein Pink). Ornamental foliage of a "woolly" appearance and velvety carmine flowers. June and July. 2 to 3 feet.

***Ajuga reptans, rubrum.** (Bugle Plant). An attractive spreading plant with bronzy foliage and delightful blue flowers. 6 to 8 inches.

Althea rosea. (Hollyhock). Tall spikes of single and double flowers, Maroon, Rose, White. July to September. 6 to 8 feet.

***Alyssum saxatile compactum.** (Gold Tuft). Small clusters of bright yellow flowers. Very useful for rock work. 8 to 12 inches. May.

Anchusa italicica Dropmore. Bright blue flowers. 3 to 5 feet. May and June.

***Anchusa myosotidiflora.** A charming little plant, producing blue flowers resembling forget-me-nots during May and June. 1 foot.

Anemone japonica. (Japanese Windflower). Beautiful rosy-red or carmine flowers with yellow stamens. Fall flowering. 2 to 3 feet.

Anemone japonica alba. Handsome white flowers with yellow stamens. September. 2 to 3 feet.

Anemone pulsatilla (Pasque Flower). Grows from 9 to 12 inches high and produces violet-tinted flowers during April and May.

Anemone sylvestris. (Snowdrop Anemone). Single white flowers in May and June. 12 to 15 inches. Very good for naturalizing in half shade.

Anemone, Queen Charlotte. Deep apple-blossom pink, semi-double. 2 to 3 feet.

Anemone, Whirlwind. Pure white, semi-double flowers. 3 to 4 feet.

Anthemis tinctoria Kelwayi. (Hardy Marguerite). Rich golden-yellow blossoms. June, July and August. 15 to 18 inches.

***Aquilegia canadensis.** (Columbine). Bright scarlet and yellow flowers. May and June. 12 to 15 inches.

***Aquilegia chrysantha.** Yellow with claret-tinted tip. Excellent. 18 to 25 inches.

***Aquilegia nivea grandiflora.** Beautiful pure white flowers. 18 to 24 inches.

***Aquilegia Dobbie Imp. Hybrids.** Long spurred hybrids in a variety of colors.

***Arabis alpina.** (Rock Cress). Pure white, dwarf. May. 6 to 12 inches.

Armeria cephalotes rubra. (Sea Pink). Bright green foliage, bright red blossoms. Blooms all summer. 9 to 12 inches.

Armeria alba. A white form of the above.

Armeria rosea. Beautiful rose-pink flowers. Blooming all summer.

Artemesia, Silver King. (Wormwood). A unique spreading plant with silvery-gray foliage.

***Aster**—The following seven varieties comprise the set of new dwarf hybrids which make mounds of color in late September and October. 35 cents each.

***Countess of Dudley**—clear pink.

***Lady Henry Maddox**—pale pink tinted lavender.

***Marjorie**—bright rose-pink.

***Nancy**—pale flesh pink.

***Remembrance**—deep soft lavender.

***Ronald**—a pleasing shade of lavender pink.

***Victor**—very dwarf. Lavender.

***Aster amellus, King George.** Semi-dwarf. A large beautiful violet blue with golden center. 35 cents each. \$3 per dozen.

***Mauve Cushion.** Large flowers of silvery mauve produced in great profusion in October and November. 9 to 12 inches. 35 cents each. \$3 per dozen.

***Royal Blue.** Dwarf even shade of deep blue.

***Aster alpinus.** (White Rock Aster). Fine, attractive aster bearing many fine white daisy-like flowers during May and June. 6 to 8 inches high.

Aster nova angliae. (New England Aster). Cerulean-blue flowers. September and October. 3 to 5 feet.

Aster n. rosea. Beautiful soft rose-colored flowers. 3 to 5 feet.

Aster novi-belgi, Climax. Large lavender-blue flowers of a most exquisite shade. August and September. 3 to 4 feet.

Aster, Burbank's Charming. Large branching heads covered with small bright pink flowers.

Aster, Mount Everest. The best white aster which we have seen. 50 cents each. \$5 per doz.

Aster, Red Rover. Bright carmine pink making a very distinct spot in the border. 50 cents each. \$5 per dozen.

Aster, Snow Sprite. Large white flowers with yellow center. Medium height. 35 cents each.

***Aster, Ypres.** Charming flowers of pink borne profusely. 35 cents each.

***Astilbe japonica, Gladstone.** (Japanese Spirea). Fine white flowers, in large pyramidal heads. June and July. 2 feet. 30 cents each. \$3. per dozen.

Astilbe, Rubrum. A beautiful deep rose-red variety of the above. July.

***Bellis perennis.** (English Daisy). Light and dark pink, white and red. Rosette-shaped flowers 1 to $1\frac{1}{2}$ inches in diameter. May and June. 3 to 6 inches. 15 cents each. \$1.25 per dozen.

***Campanula carpatica.** (Carpathian Harebell). Beautiful large, deep blue flowers. June to September. 12 inches.

***Campanula carpatica alba.** A white form of the above.

***Campanula gorganica.** (Dwarf rock bell-flower). A low-spreading tuft of narrow leaves covered with light blue starry flowers in June. 5 to 6 inches.

Campanula glomerata. An odd dwarf plant of dark gray woolly appearance bearing exquisite deep blue flowers in June and July. 12 to 15 inches.

Campanula persicifolia. Large, deep blue, bell-shaped flowers. July and August. 2 feet.

Campanula persicifolia alba—Double.

Centaurea montana. (Perennial Corn Flower). Large violet-blue flowers. July to September. 2 feet.

Centaurea m. alba. A white form of the above.

***Cerastium tomentosum.** (Snow in Summer). A very pretty plant from the Rocky Mountains. Silvery white foliage and snow-white flowers. Excellent for rockeries.

Chelone lyoni. (Turtle Head). Showy flowers of a purplish-red. July, August and September. 2 to $2\frac{1}{2}$ feet.

Chrysanthemum—Hardy Garden Varieties.

Amelia. Practically identical with Pink Cushion. Dwarf-spreading and without question one of the most outstanding recent introductions. Pleasing pink color and a wonderful prolific bloomer. Literally hundreds of blooms appearing and continuing from late August well into cold weather.

Barbara Cumming. Large flowers 3 inches across of clear yellow and orange-bronze center.

Captain R. H. Cook. Large pompon flowers of a lovely shade of medium pink.

Crimson Splendor. A very fine new variety, having semi-double flowers 4 inches in diameter. Crimson-maroon with darker shades and yellow center. Late. September. 35 cents each. \$3.50 per dozen.

***Early Bronze.** Bronze flowers about 1½ inches in diameter, produced in great abundance from September until frost. Extra good.

Excelsior. Bright golden-yellow of strong growth. Size about 2 inches. October.

Frances Whittlesey. Rich bronze with garnet shades. 2 to 3 inches in diameter. Another fine variety, blooming from late September until frost. 30 cents each. \$3 per dozen.

Glory of Seven Oaks. One of the earliest to bloom. Light, clear yellow. About 2 inches in size.

Jean Cumming. 2 to 2½ inches. Pure white with creamy tints at the center.

Jean Treadway. Large flowers 3 inches in diameter. Lively pink with deeper rose-pink center, gradually softening in color as the flower expands. Blooms from late September through the season. 35 cents each. \$3.50 per dozen.

Mrs. Phillips. 3 to 4 inches. The large daisy-like flowers of clear pink with yellow centers are very attractive. Hardy and of free blooming habit.

Pink Doty. A fine medium pink pompon of good size and habit. October and November.

White Doty. Pure white pompon. Large flowers are borne on upright stems and make a fine group in the border. October and November.

***Chrysanthemum, Shasta Daisy, Alaska.** Large white flowers are borne on upright stems and make a fine group in the border. October and November.

Chrysanthemum, Hardy Korean. The latest sensation in the Chrysanthemum world. Coming into bloom around mid October just when color is so much needed in the garden. 50 cents each. \$5 per dozen.

Apollo. A beautiful dazzling orange. Double.

Ceres. A soft buff yellow. Single.

***Diana.** A wonderful shade of rose-pink. Semi-double.

***Daphne.** A beautiful golden rose. Single.

Mars. Deep velvety crimson. Semi-double.

Mercury. An entrancing tawny scarlet. Single.

***Convallaria majalis.** (Lily of the Valley). Delicate waxy-white flowers. 6 to 10 inches. May. Strong clumps. 35 cents each. \$3 per dozen.

Coreopsis lanceolata. (Tick Seed). Bright golden-yellow single flowers. June to September. 2 to 3 feet.

Delphinium belladonna. (Larkspur). Beautiful blue flowers, free blooming. Dwarf habit.

Delphinium bellamosa. The darkest blue of all. Extra fine.

***Delphinium chinensis.** Delicate light blue flowers. July and September. 12 to 15 inches.

***Delphinium c. alba.** A white form of the above.

Delphinium hybridum. Fine strain, flowers varying from lightest to darkest blue. June to September. 5 to 6 feet.

***Dianthus barbatus.** (Sweet William). Large flat heads of flowers in scarlet, white, maroon and pink. Entire season. 12 to 15 inches.

***Dianthus Beatrix.** An entrancing light salmon-pink. Blooms in May and June.

Dianthus deltoides, Major Stearns. (Maiden Pink). A dwarf form with tufted foliage, bearing small bright pink flowers in May and June. Fine for rock planting.

***Dianthus, Furst Bismarck.** Flowers of deep pink or light red in May and June. 9 to 12 inches.

***Dianthus plumarius.** (Grass Pink). Light, silvery foliage, flowers, in various shades from flesh-white to deep pink. May and June. 12 to 15 inches.

Dianthus plumarius, Hybrids. (Hardy Garden Pink.) Double flowers in several varieties, as follows—Bright Scarlet, King of Blacks, Rosy Queen, White Gem. 12 to 15 inches. June to October. 30 cents each. \$3 per dozen.

Dicentra eximea. (Fringed Bleeding Heart). A fine dwarf-growing plant 8 to 10 in. high, bearing beautiful showy racemes of bright pink flowers throughout the summer.

Dicentra spectabilis. (Bleeding Heart). Peculiar, heart-shaped pink and white blossoms borne in long racemes. 2 feet. May to June. 40 cents each. \$4 per dozen.

Dictamnus fraxinella. (Gas Plant). Deep, rose-pink flowers, and dark green foliage which holds its color through the season. 2 to 3 feet. June.

Dictamnus f. alba. A very pretty white form of the above.

Digitalis ambigua. (Foxglove). A hardy perennial bearing spikes of light yellow flowers. 2 to 3 feet. June and July.

Digitalis gloxinoides. (Foxglove). Large, woolly-leaved biennial bearing enormous spikes of showy flowers. Assorted colors only. 3 to 4 feet. June to August.

***Gaillardia grandiflora.** (Blanket Flower). Large crimson and gold flowers. Very showy. 18 to 24 inches. July to October.

***Gaillardia, Burgundy.** Deep wine red, both center and petals. The most striking novelty which we have seen in this plant. 40 cents each. \$3.50 per dozen.

***Gentiana andrewsi.** (Closed Gentian). Beautiful dark blue. August and September. 12 to 18 inches.

***Geum (Avens) Lady Stratheden.** Double flowers of a rich golden-yellow color. Valuable for cutting or as a border plant. 12 inches.

***Geum, Mrs. Bradshaw.** Same as Lady Stratheden, but of a fiery orange-red, 12 inches.

***Gypsophila, Bristol Fairy.** Considered the best of all. Produces small, double, pure white flowers throughout the summer. Strong plants. 70 cents each. \$7 per dozen.

***Gypsophila repens rosea.** (Creeping Baby's Breath). A trailing variety of this popular plant. Lovely pink flowers. July and August.

Helenium autumnale. (Sneezewort). Bright yellow flowers. August and September. 4 to 6 ft.

Helenium a. rubrum. New, bright terra-cotta flowers. August and September. 3 to 4½ feet.

Helianthemum, Fireball. (Scarlet Rock Rose). Double bright scarlet flowers in June. 5 to 6 inches. Excellent for rock gardens.

Helianthemum, Rose Queen. (Pink Rock Rose). A beautiful pink variety of the above.

Helleborus niger. (Christmas Rose). This odd perennial is somewhat tender but if kept potted can be safely carried through the winter and will bloom in late December or early January. Plant 8 to 10 inches high. White faintly flushed with purple. Unique. 3½ in. pots. 60 cents each. \$5.00 per 12.

***Hemerocallis flava.** (Lemon Lily). Bright, single yellow flowers, foliage long and narrow. 2 feet. June.

***Hemerocallis kwanso fl. pl.** Double; orange-yellow with deep red spots. July. 2 to 2½ feet.

***Hemerocallis minor.** Clear yellow flowers appear in June, fine foliage. 18 inches.

***Hemerocallis thunbergi.** Single, clear yellow flowers. July.

***Heuchera sanguinea.** (Coral Bells). Bright coral-red flowers, good for cutting. 1 to 2 feet. June to September.

***Hosta coerulea.** (Blue Day-Lily). Light blue flowers, foliage large and of tropical appearance. 18 to 24 inches. July to August.

***Hosta subcordata.** (White Day Lily). Large, pale green tropical foliage, bearing waxy-white flowers. 18 to 24 inches. 30 cents each. \$3 per dozen.

***Hosta variegata.** Variegated foliage, very showy, dwarf. 6 to 12 inches.

***Iberis gibraltarica.** (Hardy Candytuft). A beautiful delicate lavender. 9 to 12 inches. May and June.

***Iberis sempervirens.** (Hardy Candytuft). Numerous flat, snow-white flowers. Very pretty. 9 to 12 inches. May and June.

***Incarvillea delavayi.** (Hardy Gloxinia). A rare and charming plant bearing clusters of beautiful rose-colored flowers. 18 inches. Midsummer. 35 cents each. \$3 per dozen.

***Lavandula vera.** (Sweet Lavender). Fragrant lavender flowers with aromatic silver-gray foliage. 9 to 12 inches. July to September.

Lilium canadense. (Canada Lily). Drooping flowers of buff-yellow on strong stems. 4 feet. August to September.

Lilium candidum. (Madonna Lily). Pure white and very fragrant. Considered extra choice. 35 cents each. \$3.50 per dozen.

***Lilium elegans.** An upright form bearing many flowers of brilliant scarlet. 18 to 24 inches. June and July. 30 cents each. \$3 per dozen.

***Lilium regale.** (Regal Lily). One of the most beautiful ever introduced. Trumpet-shaped. Ivory-white with pink shading, center a handsome canary-yellow tint. Large bulbs. Very fragrant. 30 cents each. \$3 per dozen.

Lilium henryi. Often called the "Yellow Speciosum." Clusters of bright orange-yellow borne on tall stems in August and September. 50 cents each. \$5 per dozen.

Lilium e. Shedd Variety. This variety was found growing in an old garden, without name, by Mr. Walter H. Shedd. The finest brilliant dark crimson which we have ever seen and we can thoroughly recommend it. \$1 each.

***Lilium speciosum album.** Pure, glistening white flowers with recurved petals. July and August. 35 cents each. \$3.50 per dozen.

Lilium superbum. (Turk's Cap Lily). Orange with darker spots. This lily is hardy and easily grown. The flower stems often attain a height of 5 to 6 feet. July.

***Lilium tenuifolium.** (Coral Lily). A charming little lily, growing about 18 inches tall and bearing numerous flowers of brilliant orange in June and July.

***Lilium t. Golden Gleam.** A variety similar in habit of growth, but producing flowers of a delightful shade of golden apricot. 40 cents each. \$4 per dozen.

Lilium tigrinum. (Tiger Lily). Quite showy scarlet, with crimson dots. 4 to 5 feet. August.

Lilium t. fl. pl. (Double Tiger Lily). Soft orange with deeper shadings. Very effective for the border. 4 feet. August. 30 cents each. \$3 per dozen.

***Limonium latifolium.** (Sea lavender). Delicate lacy flowers of lavender in large heads. 2 feet. 30 cents each. \$3 per dozen.

****Linum flavum***. (Golden Flax). Light graceful foliage and pale yellow flowers which appear all summer. 18 inches. 30 cents each. \$3 per dozen.

****Linum perenne***. (Hardy Flax). Beautiful porcelain-blue flowers. 24 inches. Midsummer.

****Lobelia cardinalis***. (Cardinal Flower). Long spikes of intense red. 3 feet. July and August.

****Lobelia siphilitica***. (Great Lobelia). Spikes of deep royal purple; very attractive. 2 feet. September.

Lupinus polyphillus. (Lupin). Long spikes of showy flowers in June and again in September. Blue, white and pink. 3 feet.

****Lychnis chalcedonica***. (Maltese Cross). Brilliant scarlet flowers in close heads. June to September. 12 to 18 inches.

Lychnis haageana. (Catchfly). Showy dwarf plant about one foot high with scarlet flowers about 2 inches across. Does well in partial shade. July.

****Lychnis viscaria***. (Campion). Spikes of bright pink flowers appear in June and July. Good for cut flowers. 1 to 2 feet.

****Mertensia virginica***. (Virginia Bluebell). Beautiful sky-blue flowers with an occasional pink tint. 18 inches. Early May.

****Myosotis palustris***. (Forget-Me-Not). No garden complete without this beautiful blue flower. 3 to 6 inches. May to October.

Nepeta mussini. (Catmint). A dwarf compact-growing plant with a mass of beautiful lavender flowers during the summer. 6 inches.

****Oenothera missouriensis***. (Evening Primrose). Large, deep, buttercup-yellow flowers spotted with red. 9 to 12 inches. June to September.

****Oenothera youngi***. Large, bright yellow. 12 to 18 inches. June to September.

****Papaver nudicaule***. (Iceland Poppy). Beautiful blossoms the entire season, of yellow, white and orange. 12 inches.

Papaver orientale. (Oriental Poppy). Large, brilliant scarlet flowers. 3 to 4 feet. May and June.

Papaver o. Mrs. Perry. Large, salmon-pink with apricot shades. The best of the "pink" varieties. 3 feet. May and June.

Penstemon digitalis. Large spikes of white flowers, somewhat resembling foxglove. June and July. 2 to 3 feet.

Phlox amoena. A low-growing, spreading variety covered with a multitude of delicate pink flowers in spring. Excellent for rockery. 6 inches.

****Phlox divaricata***. (Canadensis). Beautiful lilac-blue flowers in abundance. It is especially beautiful as it appears in April and May. Fine for cutting. 8 to 12 inches.

***Phlox sublata.** (Moss Phlox). A dwarf-creeping plant which forms a carpet. Good for rock planting. 6 to 9 inches. May to July. Pink, white and lavender.

***Physalis francheti.** (Japanese Lantern). A strong-growing plant about 2 feet high bearing bright scarlet blossoms about 1½" across. September and October.

Physostegia virginica. (False Dragon Head). Tall erect spikes bearing pink flowers. Very pretty. 3 to 4 feet. July and August.

Physostegia v. alba. A white form of the above.

Physostegia virginica, Vivid. An attractive deep rose variety of the above.

Platycodon grandiflora. (Chinese Balloon Flower). A bushy plant, bearing soft blue flowers all summer; buds resembling tiny balloons. 2 to 3 feet.

Platycodon g. alba. Same as above, except that the flowers are clear white with purple veinings.

***Platycodon g. mariesi.** A delightful dwarf variety, bearing blue flowers in abundance. 12 inches. June to September.

***Polemonium richardsoni.** (Jacob's Ladder). Finely cut foliage, bearing heads of bright blue flowers. 18 inches. June and July.

***Polemonium r. alba.** A white variety of the above.

***Primula polyantha. Munstead Strain.** (Primrose). A tall growing primrose, bearing heads of yellow flowers in May and June. 12 inches.

***Primula p.—Giant Mixed.** Similar to the above but in a variety of colors of yellow, cream, orange and rose. 12 inches. June and July.

***Primula vulgaris.** (English Primrose). Delightful shades of yellow. April to June.

***Pyrethrum hybridum.** (Feverfew). Very showy flowers of red, pink and white. June and July. 18 inches.

Rhudbeckia purpurea. (Purple Cone Flower). A very effective perennial for emphasis in the border. Reddish-purple petals and cone-shaped center. 3 to 4 feet. July and October.

***Scabiosa caucasia.** (Mourning Bride). Delicate lilac-blue flowers, borne in handsome bunches from June to September. 1 to 1½ feet.

***Scabiosa c. alba.** A white flowered form of the preceding. The flowers, borne on slender stems are charming. June to September. 1 to 1½ feet. 30 cents each. \$3 per dozen.

***Sedum acre.** (Gold Moss). Tiny flowers forming a carpet of golden-yellow. Good for rock work. 4 to 6 inches. May and June.

***Sedum aizoon.** (Great Stonecrop). Flowers small greenish-white. Late summer.

***Sedum ewersi.** (Ewer's Stonecrop). A trailing plant with light green leaves and purplish-pink flowers in September. 4 to 6 inches.

***Sedum kamschaticum.** (Orange Stonecrop). Prostrate green foliage and flat heads of golden flowers. July to September.

***Sedum lydium.** (Lydium stonecrop). Plant similar to S. Acre but foliage turns to a bright red in fall. Flowers tiny white. July and August. 4 to 6 inches.

***Sedum nevii.** Grayish-yellow foliage growing in rosettes, white fuzzy flowers. One of the best of all sedums. 5 to 6 inches.

***Sedum sarmentosum.** (Stonecrop). A dwarf plant having pale green laves and yellow flowers. Good for rock work. 4 to 6 inches. June and July.

***Sedum sexangulare.** Somewhat like S. acre, but with heavier, sharper foliage. 4 to 6 inches. May and June.

***Sedum sieboldi.** (Siebold's Stonecrop). Attractive gray foliage with red edging. Flowers rose-pink. August to October. 6 to 9 inches.

***Sedum spectabile.** (Showy Stonecrop). Rose and purple-colored flowers borne in large clusters. Very showy. 18 to 24 inches. June and July.

***Sedum s. Brilliant.** Immense flat heads of rich brilliant flowers.

***Sedum stoloniferum.** (Running Stonecrop). A very pretty creeping rock plant having deep pink flowers and glabrous green leaves. 6 inches. June and July.

***Sedum s. coccineum.** Similar to above, but flowers are of a dark pinkish-red. June and July. 6 to 9 inches.

***Sempervivum arachnoideum.** (Cobweb sempervivum). A variety of Houseleek having small rosettes of leaves, the tips of which are connected by "cobwebs." Pink flowers. 2 to 3 inches.

***Sempervivum globiferum.** Sometimes called Hen-and-Chickens, as a small globe is surrounded by smaller ones. 2 to 3 inches.

***Sempervivum tectorum.** Broad rosettes, the leaves having brownish tips. Will grow in thin soil. $2\frac{1}{2}$ in.

Stokesia cyanea. (Corn Flower—Aster). Very rugged flowers. Beautiful azure blue. August.

***Teucrium.** Dwarf evergreen plant with small silvery-green leaves. Excellent for edging where box will not thrive. Rose colored flowers on short stems in the fall.

***Thymus lanuginosus.** (Woolly Thyme). A unique dwarf plant of an attractive spreading foliage. Flowers medium pink. July and August. 4 to 6 inches.

All perennials twenty-five cents each except where otherwise noted.

****Thymus serpyllum*.** (Thyme). These dwarf growing semi-prostrate plants with their fragrant foliage and rosy-purple blossoms in July and August are very attractive for rock gardens and banks. 6 inches.

****Thymus s. album*.** Same as above but has white flowers.

***Thymus vulgaris*.** Foliage extra fragrant. Flowers small purplish-lilac. June and July. 6 inches.

****Trollius europaeus*.** (Double Buttercup). Large, showy, lemon-yellow flowers. 15 to 18 inches. June and July.

****Trollius ledebouri*.** A recent introduction growing about $2\frac{1}{2}$ feet high and bearing large deep orange-yellow blossoms late June and July. 30 cents each. \$3 per dozen.

****Trollius hybrid***—Golden Queen. A recent introduction having extra large flowers of bright greenish-yellow. Blooms in May and again in the fall. 2 feet.

****Trollius caucasicus*.** (Globe Flower). Orange-yellow flowers on stems about 18 inches tall. June and July.

****Tunica saxifraga*.** Dwarf tufted plant. Pink flowers. Blooms all summer. 6 inches.

****Tunica s. alba*.** A white form of the above.

****Veronica incana*.** (Woolly Speedwell). White woolly plants with pale blue flowers. 1 to $1\frac{1}{2}$ feet high. Very ornamental for rockery or border. July and August.

****Veronica prostrata*.** Small low-growing plant with light blue flowers.

****Veronica reptans*.** A variety much smaller than the incana and slow-growing. Dark blue flowers in May.

****Veronica subsessilis*.** (Clump Speedwell). An improvement of Longifolia with darker foliage and shorter, more branching spikes of intense blue. 2 to 3 feet. July and August. 35 cents each. \$3.50 per dozen.

****Viola cornuta*.** Chantreyland, apricot; Jersey Gem, light blue; Royal Gem, dark blue; White Gem; Yellow Gem.

****Viola*, Bowles Black.** A new introduction. Deep blackish red. Very unique. 30 cents each, \$3 per 12.

****Viola, odorata rosina*.** (Sweet Violet). This new hardy viola with its pretty rose-pink blossoms which are in abundance both spring and fall certainly has a future before it. 30 cents each. \$3 per dozen.

Gladiolus

In introducing our "glads" this year we have endeavored to pick some of the very very best of the medium priced varieties and such as we have tested out in our trial grounds here at Cherry Hill.

In noticing the prices on these, please note that our No. 1 size, such as is listed, is $1\frac{1}{2}$ " and up. Then we have a No. 2 size which is $1\frac{1}{4}$ " which we will sell for one-third cheaper than the No. 1.

Whatever you select from this collection will be the very best and such as you can rest assured will need no apology.

Our Gold Medal Collection of mixed glads will give the keenest satisfaction and embrace the best colorings in their class. No. 1 Bulbs assorted $1\frac{1}{2}$ " and up, 60 cents per 12, \$4.00 per 100. No. 2 Bulbs $1\frac{1}{4}$ ", 45 cents per 12, \$3.00 per 100.

Aida. Striking dark blue, small reddish throat blotches.

Blooms early. Darkest and one of the best of all the blues.
10 cents each, \$1.00 per 12.

Aflame. Truly enormous ruffled flowers on tall spike. An outstanding red primulinus grandiflorous variety. A begonia rose shading to bright orange flame near the edge. Very fine. Flowers six inches or more across. 10 cents each.
\$1.00 per 12.

Albatross. Very large pure white with 6-8 blooms open at a time. Considered by many as the finest white. 10 cents each, \$1.00 per 12.

Betty Nuthall. Warm coral pink with pale yellow throat markings with a slight tinge of orange. Extra nice. Rather late bloomer. 10 cents each, \$1.00 per 12.

Bill Sowden. Very large massive deep blood red. Six to seven inches across. Petals roll back. Blooms are very beautiful. A sensation. 15 cents each., \$1.50 per 12.

Commander Koehl. New red. Tall spike, very straight with many large blossoms. Florets very large, of dark scarlet without marking. Extra nice. 12 cents each, \$1.25 per 12.

Dr. Bennett. Fiery scarlet with fine white lines in the throat. 7-8 large well placed blooms open. One of the very best for exhibition or commercial purposes. 8 cents each, 80 cents per 12.

Giant Nymph. A giant in growth and flowers. Beautiful light rose-pink color with creamy-yellow throat. 7 cents each, 75 cents per 12.

Gloriana. Golden salmon, clear yellow throat. Blooms of beautiful color and can be grown wonderfully well. 8 cents each, 80 cents per 12.

Gold Eagle. Wonderful yellow. Nicely ruffled and of good substance. Blooms early. 10 cents each, \$1.00 per 12.

Golden Dream. A beautiful yellow. Late, 7 cents each, 75 cents per 12.

Jubilee (New). Large, lavender-pink. Very desirable for cut flowers. 10 cents each. \$1.00 per 12.

Kunderds Glory. Delicate pink with creamy-buff shading, ruffled petals, very fine for display. 7 cents each, 70 cents per 12.

La Paloma. Large bright vivid orange of a new and distinctive shade. Heavy texture. Early. 10 cents each, \$1.00 per 12.

Lavender Bride. A beautiful lavender rose with a smoky overcast. 8 cents each. 80 cents per 12.

Longfellow. One of the most beautiful varieties ever introduced. Clearest La France pink. Flowers large, wide open, of good form and always perfectly placed. Fine for cutting and exhibition. 7 cents each, 70 cents per 12.

Mother Machree. Rich lavender with edges of petals overlaid with salmon-pink. Very soft color flaked with an orange-red which gives it a gold appearance, some considering it the finest of the "Ashes of Roses" type. 10 cents each, \$1.00 per 12.

Mrs. Leon Douglas. Very large and spikes very long. Ground color lemon, lip slightly speckled ruby. Said to be the largest, showiest and most vigorous variety grown. 10 cents each, \$1.00 per 12.

Mrs. P. W. Sisson. One of the best light cameo pinks grown. Good exhibition variety. 10 cents each, \$1.00 per 12.

Pelegrina. New. Immense deep blue. The finest seen. A sensation wherever seen. 20 cents each, \$2.00 per 12.

Pfitzer's Triumph. Brilliant salmon with deep salmon red blotch. Very large and beautiful. Wonderful exhibition variety and fine for the garden. 10 cents each, \$1.00 per 12.

Picardy. Soft shrimp pink without flecking. Called the best of all pinks. Blooms up to six inches or more across. Well placed on tall strong spike. 15 cents each, \$1.50 per 12.

Persia. A remarkably colored gladiolus of extremely deep red of the mahogany tone, so dark as to appear almost black, the buds appearing perfectly black. 7 cents each, 75 cents per 12.

Primulinus Hybrids. Ranging from a light pink and cream to a deep red. 50 cents per 12, \$4.00 per hundred.

Salbach's Pink. Geranium pink with soft carmine tongue and throat markings. Florets of fine substance and well placed. A most beautiful flower and a wonderful cut flower. 15 cents each, \$1.25 per 12.

Star of the Sea. Large orange red. Very beautiful. 10 cents each, \$1.00 per 12.

Veilchenblau. Violet-blue flowers of large size. One of the best dark blues. Good habits, form and color. Very popular. 10 cents each, 75 cents per 12.

Yvonne. Blush white or very pale pink with cerise spot in throat. Large blooms on strong growing plants. A wonderfully fine variety. 10 cents each, \$1.00 per 12.

March 24, 1934—R. H. White Co., Boston.

Trophy Cup for Evergreen Display.

We invite your attention to the easy manner in which our nurseries may be reached. We are only 36 miles north of Boston and excellent motor roads from all directions reach our place. From Boston via the Andover Turnpike, through Haverhill, or via the North Shore and Newburyport, or over the historic Newburyport Turnpike, turning at Dummer Academy. From the north, down the beautiful Merrimack Valley, and from Maine and the Provinces through Portland and Portsmouth.
